COXEY BOBS UP

With a New Doctrine for 1900.

Demonetization of Gold as Well as Silver.

State and Municipal Ownership of Public Works--National Convention Called for Jan. 12.

CLEVELAND, Ohio, Nov. 10.—J. S. Coxey, of commonweal fame, is on the ground floor with a new doctrine for 1900.

It is a platform which declares for the demonetization of gold as well as silver, state ownership of all railroads, highways, waterways and telegraph and telephone lines; municipal ownership of all street car lines, waterworks, market houses, electric light and gas plants; employment of surplus labor in public works; women's suffrage; state control of liquor traffic and election of president by direct vote of people.

Coxey has called a conference of all friends of the initiative and referendum and advocates of the above principles of government. He believes that national banks should loan money to the people at cost, and this principle, he says, will be incorporated in the platform to be adopted in the parlors of the Lindell hotel, St. Louis, Jan 12 1897. All who favor the principles above set forth are urged to attend the St. Louis convention.

THOMAS F. BAYARD.

English People Compliment Our Ambassador.

LONDON, Nov 10.—The United States ambassador, Mr. Thomas F. Bayard, in an interview with a representative of the Associated Press, today, expressed warm appreciation of the cordiality of his reception last evening at the Guildhall banquet and, incidentally, expressed the opinion that the United States law of twenty years' possession will prevail in the case of the settlers in Venezuelan disputed districts.

The St James Gazette this afternoon, noting the approaching retirement of Mr. Bayard from the post of ambassador of the United States to the court of St. James, says: "Without reflecting upon his predecessor, it is safe to say that no American minister since Lowell has been so thoroughly acceptable to the English people and London society. Where all recognized that he had no easy task, he has worked strenuously, devotedly and passionately, yet as a patriotic envoy should, for the continuance of the friendship of both branches of the English speaking race."

NO LIQUOR LAW.

A Part of the Constitution Repealed in South Dakota.

ABERDEEN, S. D., Nov. 10.—As the prohibition law of the state was enacted to prescribe regulations for the enforcement of the provisions of article 24 of the constitution of the state of South Dakota, entitled "prohibition," it is maintained by several local attorneys and ex legislators that the law, so dependent upon the constitution, was to all intents repealed by the vote on Tuesday which repealed the prohibitive article; in other words, that South Dakota has no law calculated to regulate the manufacture and sale of intoxicating liquors. These authorities are inclined to hold that the state will be in this position from the time the official canvass of the vote is announced until the legislature meets in January and enacts a license law or makes some prevision.

BOY AND GIRL ELOPE.

John Tolley Runs Away With Frankie Shaffer.

KOKOMO, Ind., Nov 10.—John Tolley, aged seventeen, and Miss Frankie Shaffer, aged fifteen, children of prominent farmers, of Clay township, who were at outs, disappeared from school Friday afternoon, and yesterday they were married coming first to this city, where a license was obtained, then going to Elwood. The youngsters, who have been lovers from babyhood, attended the same school, and, despite the protests of parents, frequently secretly met. They left school in a buggy. The youthful bride and groom are yet at Elwood, anxiously awaiting the parental forgiveness.

LIBEL SUIT IS DISMISSED.

Helen M. Gougar's Case Against E. A. Morse Drops by the Wayside.

BOSTON, Mass., Nov. 10.—In the United States circuit court of appeals today the famous libel suit of Helen M Gougar vs. Elijah A. Morse was dismissed for want of prosecution. In this case, which began more than four years ago, two verdicts have been rendered after protracted trials. At the last trial the plaintiff excepted to Judge Putnam's rulings, but now has failed to prosecute her exception in the appellate court. The result is that the verdict below is sustained and judgment in the case follows for Mr. Morse.

WILL FIX KANSAS.

Legislature Will Pass a Congressional Reapportionment.

KANSAS CITY, Mo, Nov 10.—When the Kansas legislature convenes this winter the first thing on the program, after the election of a United States senator to succeed Peffer, is to push a congressional district reapportionment bill through. The plan of the democrat populist members, who will control the legislature, is to divide the state into eight districts, instead of seven as at present, and to so arrange the districts as to make seven of them safely populist. Far sighted politicians see in this an opportunity of electing a populist senator to succeed United States Senator Lucian Baker, thus gaining both members of the senate and all but one of the congressmen. The bill is said to be now in the course of construction.

CANADIAN RECIPROCITY

Is One of the Probabilities of the Future.

The Commercial Interests of the Dominion Said to Favor Such a Treaty.

MONTREAL, Quebec, Nov. 10.—The statement made in New York by Hon. W. S. Fielding, Canadian financial minister, that efforts will be made by the Canadian government to secure a treaty of reciprocity with the United States as soon as President-elect McKinley shall assume office at Washington, has awakened the greatest interest among business men in Montreal and throughout Canada.

The commercial interests of the dominion, regardless of politics, are almost a unit in favor of a renewal of what was known as the Elgin reciprocity treaty of 1854, and it is believed that when the representatives of the Canadian government visit Washington next spring they will endeavor to secure reciprocial legislation along the lines of that treaty.

IN THE MAUSOLEUM

Now Repose the Remains of Mrs. Vanderbilt.

All the Eight Children of the Good Woman Follow Her to the Tomb.

NEW YORK, Nov. 10.—Funeral services over the remains of Mrs. Wm. H Vanderbilt were held today at St Bartholomews church. All of the eight children of Mrs. Vanderbilt were present. There were present also the grandchildren of Mrs. Vanderbilt except Cornelius Vanderbilt, jr., Consuelo, duchess of Marlborough, and Mrs Henry Payne Whitney, all of whom are in Europe. The Rev. Dr. D. H. Greer, rector of St. Bartholomews, officiated, assisted by Bishop Potter, the Rev. Dr. John Wesley Brown rector of St. Thomas church, and the Rev. Dr. Eggleston, rector of the church at New Dorp, S. I. After the ceremonies, a feature of which was the music under the direction of R. H. Warren, the remains were taken to New Dorp and placed in the Vanderbilt mausoleum.

FARMERS' CONGRESS.

The Sixteenth Annual Session Now Being Held.

The Attendance Small, But Interest Deep--Governor Matthews Welcomes the Delegates.

INDIANAPOLIS, Nov. 10—The sixteenth annual session of the farmers' national congress began at 10:30 a m. today in the Indiana hall of the house of representatives. There were about seventy persons present, but the later sittings are expected to show a larger attendance. The general opinion of those interested in the congress was that the meetings should have been held before, rather than after, the presidential election, and that had this been the case the attendance would have numbered several hundred. The members present were representatives and leaders in the cause of agriculture. The congress was called to order by the president, B. G. Clayton, of Indianola, Iowa. Mayor Taggart delivered an address of welcome.

Response was made by the secretary, J. M. Stahl, of Chicago. He said that upon one occasion the proposition had been made to throw him out on the assumption that there were no farmers in Cook county. Illinois, as that county is Chicago. He said he kept his place by showing that the farm products of Chicago exceeded those of each of more than twenty counties in Illinois. "We came here," said the secretary, "to labor for the farmer, and yet we do not forget the men in the mine, in the shop or in the banks. We recognize the independence of all industries and that when the industries of the cities languish our agricultural industries fail."

J. G. Kingsbury, of Indiana, spoke a welcome on behalf of the press. He gave figures to show the agricultural standing of Indiana and that she stands sixth in corn, and in 1892 ranked second in wheat. J. G Offutt gave a welcome on behalf of the farmers of Indiana. He said: "We are looking forward to this congress with a great deal of anxiety and desire. We farmers find ourselves in a very streightened condition; we find that many farms are plastered over with morigages."

L. S. Coffin, of Iowa, said that his state is more largely agricultural than almost any other state. He did not come to the congress with a doleful voice. Iowa farmers were out of debt, as a rule he said, and but a very small per cent. of Iowa farms are mortgaged. Governor Matthews then welcomed the congress on behalf of the state. President Clayton was then introduced and delivered his annual address.

Mrs. Levi C. Smith and Miss Dora Brower, of Pierceton, Ind, were in the city yesterday, the guests of their brother, Cain Brower.

GIVEN HER RELEASE

The Prison Doors Were Opened to Mrs. Castle,

Because of Her Mental and Physical Condition--Was Guilty of Shoplifting.

LONDON, Nov. 10.—Mrs. Walter M Castle, of San Francisco, who was sentenced at the Clerkenwell sessions on Friday last to three months' imprisonment without hard labor, after having pleaded guilty, by the advice of counsel, to the charge of shoplifting, was released from Wormwood Scrubbs prison today on medical grounds, by order of the home secretary, Sir Matthew White Ridley. The commissioners of prisons, it appears, directed the medical board to inquire into and report upon the health of Mrs. Castle, whose condition was causing anxiety to the prison authorities. She was watched day and night by special attendants in the infirmary and was shown every attention possible. The commissioners after receiving the report of the medical board on the state of Mrs. Castle's health, communicated with the home secretary who promptly ordered her release from prison and that she be placed in the care of her husband, who has undertaken to take her back to the United States with the least possible delay.

Mr. Castle called at the home office at 11 o'clock this morning and was there informed that his wife would be released at 1 o'clock. Accompanied by a nurse he entered a carriage and drove to Wormwood Scrubbs prison, where he arrived at 12:45 p. m. The jailers ushered him into a waiting room and after a brief delay Deputy Northy granted the usual permission for the carriage to enter the gates and drive to the door of the hospital of the prison. There Mr. Castle and the nurse alighted and went to the door. A few moments later Mrs. Castle, dressed in deep black, was almost carried out of the hospital by the female attendants She was deathly pale, her face was tear stained, she appeared to be on the verge of collapse and sank fainting into her husband's arms. He tenderly embraced her and tried to console her The nurse enveloped Mrs. Castle's face in a heavy veil, wrapped her up in a shawl and assisted her to the carriage, where her head fell on her husband's shoulder and she sobbed hysterically. As the carriage passed out of the prison gates the driver applied his whip and drove rapidly away.

While Mr. Castle was in the waiting room of the prison, he was interviewed by a representative of the Associated Press. He said: "I feel twenty years younger, and as though the nightmare of the past month had vanished. My wife was informed last night that I would come for her today. She was utterly prostrated yesterday. I shall immediately retire to the country, place my wife under a doctor's care, and endeavor to restore her health, in order to permit of her speedy return to America. I desire especially to thank the Associated Press, for its kindness to me and mine and for the manner in which it has placed the matter before the American newspapers."

Bernard Abrahams, of counsel for the Castles, received the following note from the home office last evening:

"The prisoner, Ella Castle, will be released on account of her mental and physical condition and other circumstances.

(Signed.) DIGBY,
"Under Secretary."

WASHINGTON, Nov. 10—Ambassador Bayard today cabled Secretary Olney as follows from London: 'Mrs. Castle released. Leaves for America in her husband's custody."

PECULIAR CASE OF POISONING

Young Woman Found Dead in a Buggy With the Man She Loved.

INDIANAPOLIS, Nov. 10.—A peculiar poisoning case is reported from Kingman, a small village of Fountain county. Miss Addie Derby, a young woman of that village, hired a horse and buggy from a livery stable for a drive in the country to call upon John Barker, whose attentions she had been receiving. Not returning at a late hour, her uncle went in search of her, and a few miles distant he met the couple in the buggy and spoke to them. Receiving no answer he began an investigation, whereupon Barker jumped from the vehicle and ran away. Further examination showed that the girl was lying in the bottom of the buggy, apparently dead. Friends removed her to Kingman, where the physicians pronounced her case one of poisoning. Barker has not been seen. It is thought the girl will die.

NEW THEATER AT WASHINGTON.

Columbia is Opened With a Presentation of "Il Trovatore."

WASHINGTON, Nov. 10—The new and handsome Columbia theater in this city was dedicated last night by H Grau's Metropolitan English Opera company, before a fashionable audience.

The auditorium was artistically decorated in green, gold and bronze, seats 1,400, and the gilt prosenium frame is flanked on each side by six boxes draped with yellow damask.

"Il Trovatore" was the opera. Janischowsky, Payne Clark, Lizzie MacNichol and William Mertens sang the leading roles. The opening was an artistic and financial success.

Using Foreign Capital.

SAN FRANCISCO, Nov. 10.—Ex United States Senator Stephen W. Dorsey has just arrived direct from London. For several years his home has been in Denver and for a year and a half past he has been interested in a large group of gold mines near the Colorado river, twenty-eight miles from Yuma, in southern California. He went over to London to get money to develop the mines. He succeeded and will now erect a 100 stamp mill and employ 400 to 500 men.

WILL SETTLE.

Great Britain and Venezuela Arriving at a Conclusion.

The "Good Offices" of the United States Had a Strong Bearing Upon the Dispute.

WASHINGTON, Nov. 10.—The Venezuelan commission has authorized the following official statement: "The statements of Lord Salisbury as reported in the morning papers makes it probable that the boundary dispute now pending between Great Britain and Venezuela will be settled by arbitration at an early day. Under these circumstances the commission, while continuing its deliberations in the preparation and orderly arrangement of many valuable maps, reports and documents which have been procured and used in the course of its labors, does not propose to formulate any decision for the present of the matters subject to its examination. It will continue its sessions from time to time, but with the hope and expectation that a friendly and just settlement of all pending differences between the nations interested will make any final decision on its part unnecessary."

3.30 p. m.—The arbitration of the Venezuelan dispute is a settled fact. All arrangements have been completed and all details of the arbitration treaty between the United States and Great Britain arranged. The final terms of the treaty of arbitration were arranged in this city last night The terms were cabled to London and have been accepted. The treaty covers Venezuela only and does not include a treaty of arbitration of all future disputes between the two great English speaking nations. This treaty is to be arranged later by future negotiations The Venezuela arbitration commission will consist of five arbitrators, two to be named by the United States, two by Great Britain, these four to select the fifth arbitrator. Venezuela will not be directly represented on the commission.

CONGRATULATIONS.

General Harrison Writes to Major McKinley.

Hopes He May be Given Wisdom to Establish the Prosperity of the Nation.

CANTON, Ohio, Nov. 10.—The usual steady stream of callers were at the McKinley home today. Among the first to arrive this morning were Judge A. L. Morganron, of New Mexico, and Hon. Wm M. Hahn, who had charge of the speakers' bureau at the Chicago headquarters of the national committee. At 9.30 the president elect, with several friends, started for a drive in the bracing November air. At 10:21 they drove to the Pennsylvania station, where Major McKinley stepped into the train yard and onto the special car of the Chicago newspaper men, who toured to New York and Washington. Informal greetings were passed and a chat of ten minutes passed. Upon returning to the house he found a good sized crowd waiting to greet him. Among the congratulations the following letter has been received by Major McKinley from ex President Harrison:

"The use of the mails instead of the wires as the carrier of my congratulations does not imply that they are less, but rather, that they are more thoughtful and deliberate. It is a great honor, indeed, when a personal success is identified with a great national triumph. The issues forced to the front by the Chicago platform put the fight on such lines that the republican party could use the old breastworks, and make an unfailing appeal to the patriotism of the south as well as the north. I sincerely hope that you may be given the wisdom and strength needed in this emergency to restore and establish the prosperity of the nation."

Chess Challenge.

NEW YORK, Nov. 10.—Showalter, the chess expert, has telegraped from Georgetown to friends in this city that he will challenge H. N. Pillsbury to play a match. A cablegram from London yesterday to the Associated Press reported Pillsbury as saying that he was anxious for a match with Showalter but questioned his own right to challenge the latter.

Incendiary Fire.

HAMLIN, W. Va., Nov. 10—Incendiaries fired James Abbott's house last night Cora, his daughter, aged twenty, was burned to death. She was recently acquitted for the alleged blowing up of 'Squire Evan's house with dynamite killing one and injuring others.

GIGANTIC SCHEME.

A Project to Establish a Round-the-World System.

Marshall Field Heads a Party of American Capitalists Who Will Furnish the Means to Push the Enterprise.

SAN FRANCISCO, Nov. 10—A great projected enterprise is once more attracting attention here, at San Diego and in Chicago, New York and Philadelphia. It is the heavily backed proposition of a number of American capitalists to establish on the Pacific a magnificent steamship line with such railway arrangements in the United States and such connection with the new trans-Siberian line as will make it a vital and effective part of a great round the world system of communication. This new proposition which has long since passed the stage of preliminary discussion, bids fair to be in full operation before any Pacific port has welcomed the first of the much talked of Japanese liners. The project had its inception in Chicago, and among its most enthusiastic supporters are Marshall Field, the millionaire dry goods man, and other Chicago millionaires. The New York end of the enterprise is being taken care of by E. C. Potter & Co. In Philadelphia, the concern is supported by William Cramps & Sons, the ship builders.

It is the intention of these capitalists to establish a new trans Pacific line superior to anything afloat. Their plan calls for the construction of a number of steamers of not less than 8,000 tons burden and of twenty knots speed, which will make them eligible to the benefits of the United States mail subsidy of $4 per traveled mile. The distance from the California coast to Hong Kong is 7,000 miles and thus each steamer would be entitled to a bonus of $28,000 for a single trip. It is proposed to begin the enterprise with four twin screw steamers, capable of carrying 5,400 tons of freight, 500 first class passengers and 1 200 steerage passengers. As originally proposed the line was to run from San Diego to the ports of China and Japan, but since then an agent of the company has come to the coast and opened negotiations to make San Francisco the terminus on this coast.

TRAMP'S HEROIC DEED.

Prevents the Destruction of an Express Train.

Train Wreckers Place Nitroglycerine and Dynamite Upon the Tracks to Blow Up the Train.

CINCINNATI, Nov. 10.—A special from Washington, Ind, says a tramp saved an express train from being wrecked by dynamite, a short distance east of Mitchell, Ind. The story is that the tramp, about 1 a. m., found enough dynamite and nitro glycerine placed on the track to blow the engine to pieces as soon as it struck it. Having no other mode of signalling, he ran to the nearest switch, tore off the lamp, and, returning, signalled the train. As he was doing so he was shot at by the wreckers and was found unconscious by the trainmen. The officers of the Baltimore and Ohio Southwestern are inclined to doubt the tramp's story, as they have no information of his being wounded, nor of his having shown any dynamite. However, they have ordered bloodhounds to the scene and will investigate the matter.

FIND OF SKELETONS.

Bones of Aborigines Unearthed Near Anderson, Ind.

ANDERSON, Ind., Nov. 10.—Within the last few weeks, and especially in the last few days, a great deal of attention has been attracted to several finds made in the vicinity of the Indiana mounds. These finds have consisted of skeletons of a very large build, indicating aborigines of great size. The most noticeable peculiarity, however, lay in the fact that the tops of the skulls, just above the ears, were sawed off, as though the brain had been removed at burial. It was also found that in many of them there was a fifth bone, seldom found in skulls of the present day. The skulls were of a good stamp, indicating that the intellect of the aborigines was far superior to that of the Indians. Such finds were also made near Montpelier several days ago.

BAPTIST CONGRESS.

Representative Men of the Church at the Meeting.

NASHVILLE, Tenn., Nov. 10—The Baptist congress began its fourteenth annual session at the First Baptist church this afternoon, and will close its labors Thursday night. Delegates from all portions of the United States are in attendance and the session promises to be one of the most important in the history of the organization. Many questions of much interest will be discussed by eminent Baptists. Addresses of welcome were delivered at the opening session by Rev. J. B. Hawthorne, pastor of the First Baptist church, and Capt. A. J. Hardis, president of the chamber of commerce. The delegates will visit the Tennessee centennial exposition grounds tomorrow morning.

Cotton Market.

NEW YORK, Nov. 10.—The cotton market opened firm at an advance of two to four points on receipt of favorable cables from Liverpool, and decidedly firmer markets. Local and German houses bought on the theory that the top crop has been killed by the heavy frosts. Later prices fell off three to five points on lower Liverpool cables. At 11 o'clock the market was barely steady at a decline of one to two points.

IN HONOR OF "MAC."

Republicans Celebrate Their Party's Victory.

Dismal Weather Dampens the Enthusiasm--Big Time Expected Tonight.

The republican ratification today has not turned out to be a big success so far, but the managers have a hope that fires of enthusiasm will be kindled simultaneously with the big bonfires on the jail flats this evening.

The weather today has been against any kind of a demostration, and moreover many workingmen are not going to lose their time in order to celebrate a victory won a week ago.

A parade was held at noon, but it was not larger than some of the ordinary turnouts during the campaign. There were a few scattering delegtaions from the country, a number of political clubs, citizens, wagons and a few floats.

After the parade a fair crowd gathered at Princess rink to hear addresses by Col. R. S. Robertson and J. B. Harper.

The republican managers say that the outburst of enthusiasm tonight will fully atone for the light showing made today. Bonfires on the jail flats will send their glare to the heavens, numerous bands and drum corps will stir the patriotic breast and a grand parade will cover an extended line of march as far east as Hanna street and as far west as College street. Fireworks will be set off about 9 o'clock.

The above program will be carried out unless it rains and in that event a "thanksgiving and praise" service will be held at Princess rink.

LOCAL LINES.

Born, to Mr. and Mrs. Christopher Koers—a son.

The new Creighton avenue church will be dedicated Sunday, November 22.

Mrs. Kime, of Defiance, Ohio, is the guest of William Bitler and family, of South Calhoun street.

Mrs. Alfred Grindle and son returned last night from a several months' visit at her old home in England.

Miss Margie Spencer, of Indianapolis, is the guest of Miss Rosa Rodabaugh, of 286 Washington boulevard.

The young son of Mr. and Mrs. John Miller, of the north side, fell out of a chair yesterday afternoon and injured its spine.

Frank Schimmer, of Williams street, fell from a ladder in his barn yesterday and dislocated the bones of his right wrist.

Henry Epstine, ticket broker and member of the T. B. A., of Chillicothe, Ohio, is visiting Dr. and Mrs. D. Levitt, of 117 East Main street.

Dr. A. J. Boswell and William D. Henderson are out hunting today and if it rains tomorrow it will be because they shot the sky full of holes.

The first of the series of entertainments to be given by the Wayne Tent band will take place at Schroeder's hall, on Monday evening, Oct. 16.

Mr. and Mrs. Schell, who were the guests of their daughter, Mrs. C. M. Comparet, for some time, left last night for their home in Washington, D. C.

Heidelberg Reformed church will celebrate their first anniversary this evening by holding a birthday supper in Harmony hall. An attractive program will be rendered. Supper served from 5 to 10 p. m.

The Misses Pauline and Millie Leeser, of Wall street, most pleasantly entertained the H. N. G. club last evening. Cards and dancing were the features of the evening. At 12 o'clock a dainty luncheon was served.

Mr. and Mrs. Kieme, of Louisville, who are on a wedding tour, and who have been the guests of Mr. and Mrs. T. J. Rodabaugh, of Washington boulevard, will leave tomorrow for White Pigeon, Mich. Thence they will return to their Kentucky home.

Last evening, at the home of John Geismar, the D. of T. Dancing club was formed and the following officers were elected: Guy Bell, president; Rex Dryer, business manager; Ed Reitze, treasurer. The executive committee consists of the officers of the club and Messrs. Johnson and Moring.

The annual meetings of the different departments of the Independent Order of Odd Fellows will be held at Indianapolis November 16, 17 and 18. On Monday, Nov. 16, will be held the convention of the department council, Patriarchs Militant; on Tuesday, the forty-seventh grand encampment, and on Wednesday the sixtieth annual meeting of the grand lodge. This will probably continue over on Thursday. Delegates from all parts of the state, to the number of 1,200, are expected to be present.

OVERCOME BY GAS.

Henry Fisher, Gus Yergens and John Engmann the Victims.

They Are Found Insensible Under the Influence of the Deadly Fumes--Their Lives Barely Saved.

Deadly fumes of half burnt natural gas nearly took the life of three men in the bath rooms of Dr. John Schilling in the Lau block yesterday and but for the opportune arrival of A. L. Schroeder, who occupies adjoining rooms, results would have been fatal.

The bath rooms are presided over by Professor Henry Fisher, who personally attends the male patrons of the place Yesterday between 11 o'clock and noon Gus Yergens, late manager of the Brenzinger bakery, and John Engmann, of 133 West Jefferson street, were given a bath and the accustomed treatment usually applied in their cases. After the bath they reclined on couches in one of the apartments of the bath house. Professor Fisher sat in a chair reading a newspaper while the two men dozed. An almost imperciptible odor of gas was noticed by Mr. Fisher but he attached no importance to the fact. Had he known that at this moment deadly carbonic oxide gas was pouring its suffocating fumes into the room from a defective stove, he would have acted quickly and with alarm. It was not until ten minutes later, when he had become dazed under the influence of the gas, that he became conscious of something seriously wrong.

At the time the men, Yergens and Engman, were unconscious from the effects of the gas. Mr. Fisher, with great difficulty, arose to his feet, but he was so completely overcome by dizziness that he fell to the floor. He made another effort and succeeded in staggering to the door of a stairway leading to his private apartments upstairs. Step by step he dragged himself up, until near the top landing, when he fell backward almost to the bottom.

A few minutes later A. L. Schroeder, secretary of the Fidelity Benevolent association, came into the bath rooms to see Mr. Fisher on a business matter. It he had put off his visit a short time longer he would have walked in upon a scene of death.

Much alarmed by the sight of three unconscious men, and detecting at once the deadly gas fumes, Mr. Schroeder summoned assistance and had the men removed to Dr. John Schilling's office.

It required several hours hard work to resuscitate the victims of the asphyxiation and it was some time after they regained consciousness that they were wholly out of danger.

CHARGED WITH THEFT.

Charles Lang is in Rather a Tight Fix.

He is Accused of Taking Edgar Lewis' Overcoat--News in Police Circles.

Charles Lang, a stranger in the city, was arrested by Sergeant Daseler last night on the charge of stealing a coat belonging to Edgar F. Lewis. Daseler learned that Lang had pawned the missing garment and soon located his man at the "Five Cent" house, where he was spending the proceeds of his ill-gotten gains in whisky. The case was continued by the mayor until tomorrow morning.

POLICE NOTES.

Arthur Burns, for drunkenness, was up before his honor this morning, and was sent to jail for fifteen days.

Mrs. George Shordon, of Geoglein, reported at police headquarters today that a basket of butter had been stolen from her wagon. Several other farmers' wives reported similar losses, so it is evident that some one is making a specialty of butter pilfering.

NEW SIDEWALKS.

Several Streets to be Improved This Fall.

The board of public works met yesterday afternoon, and took action on the project of completing the fill of the old gravel pit at the entrance to Swinney park. The terms of the deed, provide that the work shall be done by the first of next month.

The work of paving Wells street, from the river bridge to a point sixty feet north of the Lake Shore tracks, has been completed and was accepted by the board. That part of the street extending from the railway tracks to Hoffman street is almost finished.

The sidewalks on the east side of Walton avenue from Wayne trace to Maumee avenue, is also completed and was accepted.

The board approved the bonds submitted by the following persons:

Andrew Krock, for raising and relaying a sidewalk on West Wayne street; August Riethmiller, for laying by private contracts sidewalks on Taylor street, and Charles Schreck, for laying sidewalks on West Wayne street.

A resolution for the construction of sidewalks on the west side of Force street, from Pontiac street to Ninth, was adopted. This is in Alderman's addition and is in compliance with the requests of the property owners of the vicinity.

The Grand Lodge of Odd Fellows has decided to build a nine story building costing about $200,000. The building will be of modern style of architecture, the plans of which are now under consideration by a subcommittee, which will make a definite report to the grand lodge, which meets next week. There has been some complaint from the lodges throughout the state against the erection of this building, fearing that assessments would be made. In order to overcome this feeling of objection the building committee has decided to issue bonds, and in tha way raise the necessary funds without making assessments.

DIED OF DIPHTHERIA.

Miss Sarah Klinger, a Young Lady, Succumbs.

William Baral Dies at Cleveland and His Body is Brought Home for Burial.

Miss Sarah L. Klinger, aged eighteen years, died last night at the residence of her parents, 13 Huffman street, of diphtheria. The funeral was held this afternoon and the remains were interred at Hatfield cemetery.

SUPREME KNIGHTS.

High Officers of a Catholic Insurance Order

Now in the City for a Semi-Annual Inspection of the Supreme Secretary's Books.

A distinguished party of Catholic Knights of America are in the city today. They are supreme officers of the insurance branch of the order and their business here is to make a semi-annual examination of the books of the supreme secretary, W. S. O'Rourke.

Those here are Edward Feeney, supreme president, Brooklyn, N. Y.; C. S. Ott, supreme vice president, Galveston, Texas; C. J. Kirschner, supreme trustee, Toledo, Ohio; Richard Walsh, St. Louis; J. C. Carroll, Norfolk, Va., and E. D. McGinnis, Providence, R. I., supreme trustees.

So far as the committee has gone they have found the books in excellent shape and kept under a system that must reflect great credit upon Mr. O'Rourke.

Mr. Kirschner, the supreme treasurer, in conversation with a SENTINEL reporter said the order is stronger now than ever before in its history and is a blessing to its thousands of members, who are thus provided with a heritage for their families at a small expense.

EVANGELISTIC SERVICES

Being Conducted at the West Jefferson Street Church of Christ.

At the West Jefferson street Church of Christ evangelistic services are being conducted by the pastor, Rev. P. J. Rice, assisted by the noted evangelistic singer, Fred A. Thomas. The music, under the direction of Mr. Thomas, will be a prominent feature of each service. Tonight Archie Stout, of Chicago, will also assist in the singing. The sermons will be strictly of a gospel character. Tonight the subject will be, "What Christians May Do to Save the Unsaved." Other subjects will be as follows: "What God Has Done to Save the Unsaved," "What Christ Has Done and is Doing to Save the Unsaved," "What the Holy Spirit Has Done and is Doing to Save the Unsaved," and "What the Unsaved Must Do to Save Themselves." The pastor and church extends a cordial invitation to the public.

GEORGIA'S SENATOR

Is Still a Matter of Much Perplexity.

ATLANTA, Ga., Nov. 10—The two branches of the general assembly met in joint session in the hall of the house today and began balloting for United States senator. The democratic caucus having failed to make a nomination after twelve ballots last night, the vote today was a mere formality, gone through with to comply with the law. The democrats scattered their ballots as in the caucus, the populist minority voting for Gen. William Phillips, of Cobb county, and there was no choice. The democratic caucus will resume its sitting at 3 o'clock this afternoon.

The Evening Sentinel.

BY E. A. HACKETT.

TUESDAY, NOV. 10, 1896.

THE wheat harvest of the world shows a decrease this year of 185,485,542 bushels as compared with that of last year.

CHICAGO is crowing over the size of her vote. Her presidential ballots numbered 345,775, and she places alongside of this number the vote of New York city, which was 299,720.

KENTUCKY wavered for a long time, but at last it dropped into the McKinley column. Its electorial vote was not needed to insure the election of the republican candidate for president.

THE kind of a campaign that everybody should enter upon, wisely suggests the South Bend Times, is a campaign for making business lively and profitable, for securing remunerative employment to labor and for securing general prosperity to the 70,000,000 inhabitants of this great country.

S. E. NICHOLSON, who has just been re elected to the legislature by the republicans, has announced that he is a candidate for speaker of the house. He is the author of the Nicholson temperance law and president of the State Good Citizens' league, an organization formed to enforce the saloon law of the state.

WOMEN voted for electors for president and vice president this year in three states of the union. In Colorado, Wyoming and Utah they were on completely equal terms with men in the exercise of the franchise. It is claimed that in five times out of six the women, if married, join the party to which their husbands belong; or if unmarried, that to which their fathers, brothers or lovers may be allied.

J. FRANK CALLEN, secretary of the Licensed Saloonkeepers' league of Indiana, has issued a circular letter to the saloonkeepers of the state, calling upon them to organize, that legislation detrimental to their business may not be possible in the next legislature. The address has been circulated freely. It begins by saying that "at no time in the history of the trade in the state have such dangers from fanatical busybodies confronted us as at present." Further it is charged that unless the saloonkeepers organize and take steps to prevent it, legislation may be expected that will cripple the industry and ruin trade and investments.

DISCONTENTED young men, who are unhappy because they accumulate money so slowly, ought to read the sentiments of Andrew Carnegie, the well known millionaire, as he is reviewing the poverty and hard toil of his early life. He says: "You know how people are all moaning about poverty as being a great evil, and it seems to be accepted that if people only had money and were rich that they would be happy and more useful and get more out of life. There was never a graver mistake. As a rule there is more happiness, more genuine satisfaction and a truer life in the humble cottages of the poor than in the palaces of the rich."

THE annual report of Captain N. M. Brooks, superintendent of foreign mails, shows that the aggregate weight of the mail dispatched from this country by sea to other countries during the past fiscal year was 5 286,914 pounds, of which over 4,500,000 pounds were trans-Atlantic. It is pointed out that the postage collected by the govern. ment on articles exchanged with foreign countries largely exceeds the gross expense incurred by the department in connection with that service. The sum of $5,294,756 was received by this country for mail exchanged with other countries. Only 1,516 errors were reported in the distribution of 11,518,373 letters and postal cards. The net excess of cost of the contract ocean mail service was $453 386. Action is recommended on the questions of the extension of the parcels post system; the reduction of the registration fee to five cents and on that of a limited responsibility for registered articles lost or destroyed in the international mails in transit through the United States.

THE crown and glory of life is character. It is the noblest possession of a man constituting a rank in itself, and an estate in the general good will; dignifying every station and exalting every position in society. It exercises a greater power than wealth, and secures all the honor without the jealousies of fame. It carries with it an influence which always tells; for it is the result of proved honor, rectitude and consistency—qualities which, perhaps, more than any other, command the general confidence and respect of mankind. Character is human nature in its best form. It is moral order embodied in the individual. Men of character are not only the conscience of society, but in every well governed state they are its best motive power; for it is moral qualities in the main which rule the world. Even in war Napoleon said: "The moral is to the physical as ten to one." The strength, the industry, and the civilization of nations—all depend upon individual character, and the very foundations of civil security rest upon it. Laws and institutions are but its outgrowth.

TAKES THE FIELD.

General Weyler Goes Out to Fight the Cubans.

Is Headed Towards the Strongholds of the Enemy, in the Province of Pinar Del Rio.

HAVANA, Nov. 10.—Captain General Weyler has taken to the field in person against the insurgents under Antonio Maceo in the province of Pinar del Rio and reliable news received from the front indicates that the Spanish columns are approaching close to the enemy. General Weyler left Havana on board the cruiser Legaspy half an hour after midnight, his destination being the port of Mariel, province of Pinar del Rio. From Mariel, it is understood, the captain general will go southward by the highway to the town of Artemisa, and along the line of the trocha. Strong reinforcements are being embarked to support the captain general in the operations now in progress against the insurgents. The Marquis De Ahumada remains in charge of the captain general's office here, with Colonel Ramon Dominguzes as his chief of staff. The committee of the national defense has passed a resolution requesting the government to finish the rebellion by the use of the army and without political interference.

NICHOLSON LAW.

Author of the Measure Will Seek to Remedy Defects.

INDIANAPOLIS, Nov. 10—The members of the Indiana Liquor league have received notice that Rev. S. E Nicholson, author of the temperance law passed by the last legislature, is preparing to offer some important amendments to that measure at the coming session, and the information has created a good deal of feeling. The amendments are said to relate to some of the features of the law, which it has been found hard to enforce, and one of them will provide penalties against officers for neglect of duty. Another will seek to carry out the provisions of the decision of the supreme court in the Stehlin case, in which the court held that the erection and maintenance of a saloon in a residence neighborhood might be a nuisance and that the adjoining property owner could recover damages. The proposed amendment will seek to limit the evidence in such cases to owners of property in the neighborhood affected, thus putting it out of the power of saloonkeepers when sued for damages to bring in others engaged in the business in remote localities and prove that the liquor business is not detrimental to adjoining property. Other proposed amendments will strengthen the law in the matters of filling remonstrances so as to cure the defects which have been found to exist in securing the withdrawal of signers.

SAYS PARNELL STILL LIVES.

Professor Haddon Declares the Irish Leader is in America.

LONDON, Nov. 10—The London Times says that a firm of London publishers wrote last week to Professor Haddon, of Dublin, anent the matter of preparing a life of Parnell.

Professor Haddon replied, saying that a general belief exists that Parnell is alive on an obscure ranch in a western state.

Shortly after the announcement of Parnell's death Professor Haddon approached the widow, mother and personal friends of Parnell with a view to obtaining materials for a biographical sketch. Documents and statements concerning Mr. Parnell were refused, the reason being given in confidence that Parnell is still alive.

ARRESTED FOR FORGERY.

A Once Respectable Man Downed by Strong Drink.

CLEVELAND, Ohio, Nov. 10.—Frank E. Norton, a traveling salesman of Boston, is locked up at the central police station on the charge of passing forged checks. A number of bogus checks were found upon his person when he was searched by the police. Norton says he comes from one of the best families of Massachusetts and attributes his downfall to drink.

Killed by a Bear.

TROY, Mont, Nov. 10.—Rev. J. D Mentor, of this place, has lost his life in a desperate encounter with a bear in the mountains near here. He had been out with a hunting party and separated from them during the morning. At daylight he did not return, and becoming alarmed his companions started out to search for him. Mentor's hat was found in the snow. Blood was seen and evidences of a terrible battle with a bear were found. Following the trail the dead and lacerated body of the young minister was found about 100 yards away.

Convicted of Forgery.

SAN FRANCISCO, Nov. 10—Alonzo J. Whiteman, ex-mayor of Duluth, legislator and prominent citizen of Minnesota, who was convicted of forgery and sentenced to San Quentin, went forth yesterday a free man from Judge Wallace's court. Superior Judge Wallace dismissed the three indictments against him at his own request, and a most interesting case was brought to an end.

J. M. ROBINSON.

Remarkable Career of Our Congressman-Elect.

Monday's Indianapolis Sentinel contains the following complimentary notice of Hon James M. Robinson, congressman-elect of this district:

"Congressman-elect J. M. Robinson, of the Fort Wayne district, has indeed had a remarkable career. Commencing life on the streets of Fort Wayne as a newsboy at the age of fifteen, in 1876 he began work in the shop as a machine hand, at that time supporting a widowed mother; for five years he labored in the shop, in the meantime studying law, and quitting his employment there in 1881 he began at once the practice of law at Fort Wayne. In 1882 he was unanimously nominated for prosecuting attorney and elected, running 700 votes ahead of the state ticket. After filling four years as prosecuting attorney, in 1892 he came within a few votes of receiving the nomination for congress in that district at the age of thirty. This year he was nominated without opposition for his first term, being the first time that this has occurred in the history of the district. By running ahead of the presidential ticket in Fort Wayne nearly 600 votes, he is elected to congress by about 500 majority."

A prominent East Jefferson street young lady was sadly disappointed last evening in not getting a ride around the court house square She had made an agreement with a prominent young horse shoer that if Bryan was elected she would give him a ride in a wheel barrow on the cobble stones of the gutters about the public square and if McKinley was elected he was to push the vehicle, with her an occupant. The affair was to have taken place at 7:30 o'clock and the young lady was on hand with an arm load of cushions which she had intended to use to reduce the jolting to a minimum. The young man was also at the scene, but minus the barrow. He had expected the young lady to back down and when she put in an appearance he didn't have nerve enough to fulfill his part o the contract, much to the disappointment of a large number of expectant spectators and the friends of both parties

TOOK POISON.

William Humbert's Body Found in Franklin Square.

A Note in His Pocket Tells How Death Occurred and Leads to Identity of the Man.

BOSTON, Nov. 10—The body of a man, believed to be Wm F. Humbert, of Lynn, at one time a member of the Chicago and Boston base ball teams, was found on Franklin square, this city, this morning, and in a pocket the police found a note which announced that it was the writer's intention to poison himself. The note was signed "W. H. Feley, Lynn," and asked that his wife in Lynn be notified.

Investigation showed that William F. Humbert had been missing from that city and that the description of the body agreed with that of Humbert Mrs Humbert lives at the address left by the suicide. Humbert sustained injuries to his head in a street car accident some time ago and it is thought his failure to collect damages led to despondency.

LEHMAN'S.

Constipation is the start of nearly all sickness in the world. It not only makes a man sick, but it depresses him mentally. It gives him "the blues." He is plunged in the depths of despondency. As he gets rid of his constipation, he feels himself lifted out of the depressing darkness back into the light of health and good feeling. The alarming prevalence of this really dangerous, seemingly insignificant disorder, many years ago induced Dr. Pierce to prepare his since world-famous "Pleasant Pellets." They are designed to do just one thing, and they do it. They restore the bowels and liver to a healthy, natural action. One little "Pellet" is a gentle laxative, and two a mild purgative. They cure headache, heart-burn, sour stomach, flatulency, biliousness, foul taste in the mouth, and all the other disagreeable symptoms of constipation. Druggists sell them, but look out that your druggist is honest with you, and gives you what you ask for. Don't accept a substitute.

There would be less sickness in America if every home library contained a copy of Doctor Pierce's great work, "The People's Common Sense Medical Adviser." It is exactly what its name implies. It is the people's text-book of medicine, prepared by a regular, practicing physician, eminent in his profession, and now—as for thirty years—the head of one of the greatest medical and surgical institutes in the world—The Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. It is full of simple, inexpensive, common sense remedies for the cure of the common ailments that arise in every family. By following its advice, many illnesses are nipped in the bud, which might otherwise become serious and dangerous. This great book will be sent absolutely free, in paper-covers, to any one who will send twenty-one one-cent stamps, to pay the cost of mailing *only*, to the World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y. If French cloth binding is desired, send ten cents extra (thirty-one cents in all).

Keep A JUMPIN'

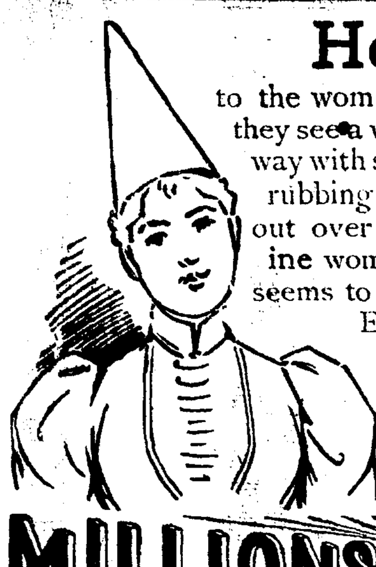

THE storekeeper, politician, salesman, mechanic or laboring man who expects to do much business or make both ends meet this year, must practice the lesson in the above illustration: Two bullfrogs found themselves in a pail of milk from which they could not jump out. One of them was for giving up, and said to the other: "Good bye, I sink, I die." Said his mate: "Brace up you duffer." Keep a jumping and see what turns up. So they kept a jumping up and down all night, and by morning had so churned the milk that it turned to butter, and they jumped off the butter on to land. This is no milk and water tale as you see by the results—the butter. If you want to make both ends meet, "Keep a JUMPING." Don't cry "I sink, I die." You who keeps looking for bad times and a snap will not live long enough to get a snap or see good times. The man who keeps a jumping and buys his FURNITURE, Carpets, Stoves and Dishes of the

Cash or Time, is the man who sees good times first.

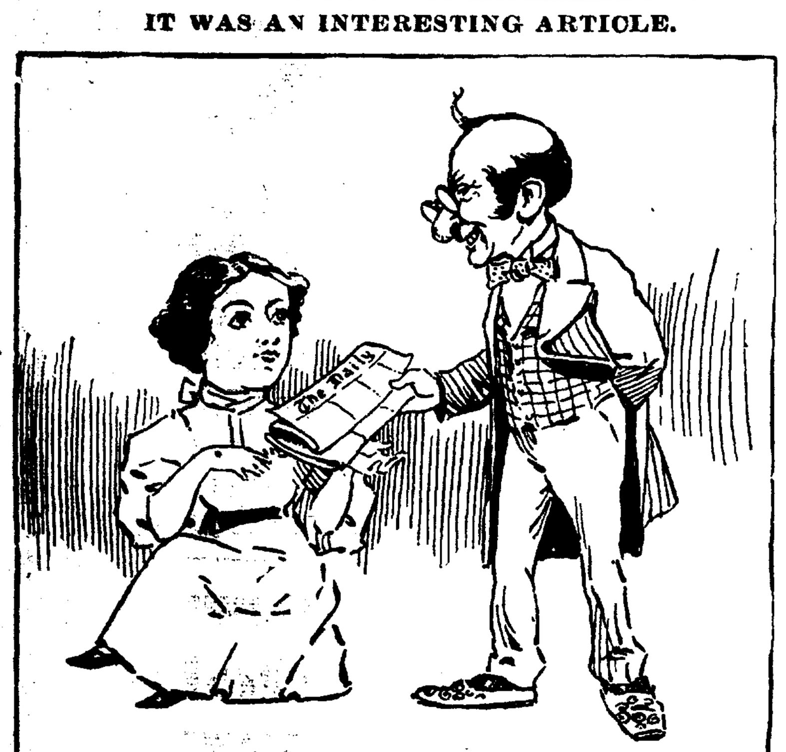

How it looks,

to the women who wash with Pearline, when they see a woman washing in the old-fashioned way with soap—rubbing the clothes to pieces, rubbing away her strength, wearing herself out over the washboard! To these Pearline women, fresh from easy washing, she seems to "wear a fool's cap unawares."

Everything's in favor of Pearline—easier work, quicker work, better work, safety, economy. There's not one thing against it. What's the use of washing in the hardest way, when it costs more money? 489

RAILWAYS AND SHOPS.

The Pittsburg Puts a New Time Table Into Effect Sunday.

Accidents, Incidents and Personal Gossip, Picked Up Around the Railways and Shops.

Next Sunday a new time table goes into effect upon the Pittsburg road. The only important change will be in the departure of the Chicago accommodation, No. 37, which will leave this city at 8 a. m. instead of 7:10 a. m. This change will be welcomed by the traveling salesmen, some of whom find the 7:10 train too early for them.

BRIEF MENTION.

Supt. J. B. Barnes, of the Wabash is in the city.

Walter Adams, machinist at the Bass works, is sick and off duty.

J. L. Head, Wabash claim agent, was in the city yesterday. He resides in Peru.

Engines 350 and 479 were turned out of the Wabash shops today after being repaired.

Frank Cherry, one of the veteran boilermakers in the Pittsburg shops, is off duty on account of sickness.

L. R. Bookwalter, machinist in the Pittsburg shops, is suffering from an illness which confines him to his home.

Two dynamos to New York and one dynamo to Boston were the chief shipments from the electric works today.

Charles W. Zeigler, the Nickel Plate local freight conductor, has moved from Superior street into the cosy house at 171 West Main street.

Nickel Plate engine 166 has gone to the shops for repairs.

The winter schedule of the Pensylvania lines takes effect November 15.

Conductor R. C. Ross, of the Nickel Plate, has been enjoying a few days' rest.

J. A. Jackson, Nickel Plate brakeman, has removed from Superior to Boone street.

J. W. Murphy, Nickel Plate brakeman, is taking a day off to look after private affairs.

Engineer W. Morris and Firemen John Dixon, of the Nickel Plate, are taking a lay off.

J. H. Garabty, formerly purchasing agent of the Big Four, is operating a coal mine in Illinois.

C. J. Smith is a new name on the Nickel Plate pay rolls. The owner of the cognomen is a brakeman.

The machinists who attend the meeting of the union tomorrow evening will be treated to a dish of oysters.

This is pay day at the Bass works and a half-dozen other factories. At the former shop the men received their wages in gold.

F. E. Caley, a brakeman on the Pennsylvania railway, fell in alighting from a street car Sunday afternoon and broke his left wrist.

Supt. T. R. Pickard and Mr. C. T. Strawbridge, of the Bass Foundry and Machine works, went to St. Louis on business for the firm.

On Friday a larger number of freight trains were run on the Michigan division of the Big Four than on any day during the past two years.

J. E Noble, traveling salesman for the Bass works, went to Chicago today to make an estimate and put in a bid for equipping a steam plant.

Joseph Carry and Henry Dryer, of the Pittsburg blacksmith shop, are off duty on account of sickness. Mr. Carry is afflicted with rheumatism.

It is stated officially that the Pittsburg, Fort Wayne and Chicago, in the last sixty days before the election, carried to Canton 52,400 people.

Railroad Commissioner Dale, of Massachusetts, is thought to be fatally ill. Three weeks ago he was stricken with congestion of the brain.

December 1 has been decided upon as the date for the formal opening of the Pennsylvania company's new freight depot at Columbus, Ohio.

George Horton, the Nickel Plate brakeman who was kept from his duties several days by the serious illness of his baby, took his run out yesterday.

The Keystone Bridge company has been awarded a contract to build thirteen long steel viaducts for the Butler and Pittsburg road, Mr. Carnegie's new line.

Brakeman W. P. Morris, of the Nickel Plate, has gone to Latta, Ohio, where his father is lying so ill that hopes of recovery have been abandoned.

It is understood that Garret A. Hobart, vice president-elect, will this week resign his position as one of the board of arbitrators of the Joint Traffic association.

Charles Seibt came home last evening from Shelby, Ohio. He spent two months in that place, setting up an engine and other machinery, which was built at the Bass works.

Pittsburg engines Nos. 3 and 245 left the shops yesterday after repairs and repainting. Coach 157 was also turned out of the shops yesterday, wearing a brand new coat of paint and varnish.

O. Browning, formerly foreman of the bending department of the Standard Wheel works, has moved from this city to Indianapolis, where he is engaged in a similar capacity with the same firm.

Mr. and Mrs. Christian Shultz, who were spending their honeymoon at Grand Rapids, Mich., returned home Saturday, and Mr. Shultz, who is a machinist, has resumed his duties in the Bass shops.

Since the election there has been a great rush of hunters with their equipments to northern hunting grounds One train on Wednesday had thirty sportsmen on board, most of them going to northern Michigan.

Louis G. Dailey has returned from Wabash and resumed his place at the desk in the office of Master Car Builder J. A. Graham. George White, who filled the position during Mr. Dailey's absence, has returned to the east shops.

William Kelley, of the testing department of the electric works, had the palm of his left hand burned into a crisp while working about arc lamps this morning. Though the pain from the wound is intense, Mr. Kelley pluckily remained on duty.

The rules governing the train service of the Wabash are now printed in book form and are encased in a neat imitation morocco cover. Formerly the rules were printed upon the backs of the time cards. The books are now being distributed among the trainmen.

The patrol wagon was called to Fairfield avenue at 5:30 last evening to remove a sick man from the Wabash local freight train to his home. This probably gave rise to the rumor which was circulated about the city this morning that a man had been killed by a Wabash train.

Sam Deahl is taking a few days' rest. J. E Allen and F. Young have reported for duty after a few days' absence. All are Nickel Plate brakemen.

Brakeman John Kay, of the Nickel Plate, who was at Bellevue ten days, looking after some private business, resumed his run on the road yesterday.

Employes of the Big Four have, since the boom in its stock set in, been purchasing some of the preferred stock. One employe on Saturday put $500 into this stock.

General Manager Green, of the Baltimore and Ohio, has removed his family from Cincinnati to Baltimore, taking the house occupied for some years by ex Governor Jackson.

Tim Short, the well known Nickel Plate engineer, has gone to Round lake, in western Indiana, to hunt ducks and quail ten days. He goes up there twice a year and always finds plenty of game.

Nickel Plate engine 28 has been turned out of the Stony Island shops and is hauling freight again between this city and Bellevue. Engineer D. T. McFee and Fireman John Tracey form the crew of No. 28's crew.

W. P. Jenkins, third vice president and superintendent of transportation of the Hammond Packing company, has resigned his first-named title and will give his entire attention to the transportation department, so much have the duties of the department increased.

Grand Rapids engine No. 218 was taken into the Fort Wayne shops today for repairs to her drive wheels and journal. This is the first engine from that line to come here for repairs, but, under the new order of things, it will be followed by many more. Only light repairs will be done in the Grand Rapids shops hereafter.

General Manager Ramsey, of the Wabash, will arrive here at 9 o'clock tomorrow morning. On his trip over the line he is accompanied only by division superintendents, civil engineers, roadmasters and section foremen. The shop officials are not taken on this tour, but their turn, it is expected, will come later.

Western roads have agreed to establish a normal commission of 10 per cent. on December 1, regardless of any action of the Southern Pacific, and now that the Chicago and Grand Trunk and the Canadian Pacific have agreed to pay no more excessive commissions on west bound immigrant business, the matter seems about settled.

The many friends of Allen Hamilton, the well known Pittsburg machinist, will be sorry to learn that he met with an accident yesterday which resulted in the amputation of one of his index fingers. Mr. Hamilton got the digit fastened into a lathe which he was operating. Dr. G. C. Stemen amputated the finger at the first joint.

It is stated that the reason the Vandalia is using its large eight wheel Schenectady engines so little on its fast express trains is that they pound the track badly, and the company will now commence putting stone ballast where the track suffers most from the character of the ground upon which it rests, gravel ballast not being solid enough to prevent the track settling.

Judge Allen, of the United States court, has rendered a decision giving judgment for $93,752 in favor of James E. Hopkins and E. O. Wilson, receivers of the western division of the Louisville, Evansville and St. Louis, against the connecting railway company and the Wiggins Ferry company for rents, taxes and waste under the lease made by complainants with the defendants.

The work of getting out the material for the new cars which are to be built at the Pennsylvania shops is well advanced and next Monday the car builders will commence erecting them. From that time until the completion of the work an average of six cars per day will be turned out of the shops. As there are 235 cars to be built the work will consume about six weeks and will not be completed before the holidays.

Pittsburg switch engine No. 9 pushed a section of the round house wall out last evening. The locomotive was set upon one of the stalls to be cleaned and one of the cleaners, a new employe, climbed into the cab to move the engine forward a few feet. He gave the lever too vigorous a pull and before he knew "where he was at," the drivers went spinning around and the engine went through the wall. The only damage to the engine was a broken step.

The western roads have struck another blow at the scalpers by the adoption of a new form of certificates for use whenever tickets are sold to conventions, meetings or at reduced rates. The agreement to sell only such tickets will prevent the scalpers handling them, which, for years, they have been doing on a large scale, much to the annoyance of the companies. The new certificate is considered iron clad, and one that it will be impossible to scalp. It is stated that the members of the Western Passenger association favor putting it in use at once, and at their meeting next week will pobably vote to do so.

Many Killed.

CONSTANTINOPLE, Nov. 10.—The reports in circulation here on Thursday last that a massacre had occurred in an American village near Kaisarieh, and that sixty persons had been killed were not exaggerated. On the contrary, the affair turns out to have been more serious than at first announced. The massacre occurred in the village of Everek. One hundred persons were killed and nearly all the Armenian houses were pillaged.

KNIGHTS OF LABOR.

The General Assembly Opened for Business.

All the Sessions to be Held Behind Closed Doors and Delegates Pledged to Secrecy.

ROCHESTER, N. Y., Nov. 10.—The regular session of the general assembly of the Knights of Labor opened here today with about 100 delegates present from different parts of the United States and Canada. General Master Workman Soverign presided, and Charles W. Wright, of this city, welcomed the delegation and introduced Mayor Warner, who delivered an address. General Worthy Foreman M. J. Bishop, of Boston, replied to Mayor Warner, and stated the objects of the order. T. B. McGuire, of Amsterdam, a member of the executive board, delivered an address, and Mrs. Ford, of Rochester, the only woman delegate, also spoke, after which the meeting went into executive session. The meeting throughout is strictly secret, nothing being given out except through the press committee appointed by the general master workman.

A Traveling Man Drowned.

VALPARAISO, Ind., Nov. 10.—Last Wednesday George Bedell, a traveling man, left this city on a trip through Michigan. Saturday Mrs. Bedell received a telegram stating that her husband had been drowned while crossing the river at Fair Grove, Mich. He was an ex-soldier, fifty-five years old, and leaves a family of six children.

Surely Elected.

DENVER, Col., Nov. 10.—The official returns show that the majority for John F. Shafrath in the First congressional district of Colorado is 54,372. This is the greatest majority ever given a member of congress since the foundation of our government.

THE DEAF MAY HEAR.

That Is, When They Go to Dr. G. B. Spalding's Presbyterian Church.

Many an old lady goes to church of a Sunday and sits through the service in a frame of mind devout to a degree, but never hears a solitary word of the sermon. There is a preacher in Syracuse, Rev. George B. Spalding, D. D., who has changed all that. Dr. Spalding is pastor of the First Presbyterian church, a religious body made up in the main of wealthy folk to whom money is no particular object. Moved at first by the lamentations of some of his aged parishioners that they could not hear his preachments—Dr. Spalding was a newspaper man before he joined the clergy, and is a practical soul withal—he arranged, for the better delivery of the gospel to those deaf brethren and sisters, speaking tubes which ran from a large metal receiver—really a megaphone—immediately in front of him on the pulpit, down under the flooring of the auditorium and up into the pews. The megaphone is built into the front of the pulpit, so that when reading or speaking the doctor addresses it directly. So successful did the clergyman's device prove, that speaking tubes were put into every pew in the great auditorium. Any person, who is hard of hearing and happens to be a visitor to the church, will find means at hand of hearing the sermon.

One deaf old lady, who went to Dr. Spalding's church the other day, having heard of the speaking tube system, burst into tears when she put the transmitter to her ear and caught the sound of the preacher's voice. She said it was the first sermon she had heard for over a quarter of a century.

MARK YOUR WHEEL.

Here Is a Simple Method for Identification If Your Bicycle Is Stolen.

It is always a good plan for every owner of a bicycle to have a private mark on his wheel. This has been tried plenty of times, but in case of theft it is somehow always discovered and obliterated. Now, however, it is suggested that the machine be marked by scraping an inch square of the enamel from some portion of the frame of the machine. After all traces of the enamel have been removed, apply a coating of grease, and with a pointed piece of steel dipped in carbolic acid, draw the initials or private mark through the grease. The acid follows the marking of the steel point, where the grease keeps it from spreading. After allowing the acid to eat into the tubing, the grease can be rubbed off, and the mark or initial shows as plainly as if cut into the steel framework. One coat of enamel will completely hide all traces of the mark. Should any question as to the ownership of the wheel arise, the owner could, by simply scratching off the enamel which covered his mark, at once prove his claim.

Wheat Records Another Rise in Price.

Opened This Morning One Cent Higher Than Last Night's Close—Other Market Quotations.

NEW YORK, Nov. 10.—Wheat eclipsed yesterday's record price this morning by going up to $87\frac{7}{8}$c soon after the start on December. The sharp advance induced profit taking, however, and under the pressure Dec. dropped to $87\frac{1}{4}$c before noon. Unexpectedly higher cables, foreign buying, unfavorable European and Argentine crop reports and light spring wheat receipts occasioned the early buying. Transactions in wheat futures to noon amounted to 5 070,000 bushels.

Corn and oats sympathized readily with wheat but provisions were lacking in energy, because of large hog receipts December wheat opened $1\frac{1}{2}$@$1\frac{5}{8}$c higher, at $80\frac{1}{8}$@$80\frac{1}{4}$c; sold at $80\frac{1}{2}$c, declined to $80\frac{1}{4}$c, advanced to $80\frac{5}{8}$c and again declined to $80\frac{1}{8}$c on free selling against calls. HISTORIC CHURCH.

One of the Few Relics in the Early Northwest.

The old Mission church on Mackinac Island is one of the few Protestant temples that have come down to the present time unchanged from pioneer days. It was built in 1829 when the inhabitants of the island were fishermen. It fronts on the main street and looks across the narrow road just as it did when its builders put the finishing touches to its roof. Before the mission are clustered several cottages with low eaves. These were built in the old days, too, and served as homes for the hardy fellows who caught fish in the lake. Two great elms half hide the view of the building from the shore. The edifice was put up under the direction of Rev. Dr. Ferry, whose son has since risen to eminence as a United States senator. It was built firm and strong. In spite of the fact that almost seventy northern winters have beaten upon it, the old timbers are as stanch as when they were put together, and the tin on the tower shines as lustrously as the day it was smelted. Along in the '30s, when the fur company dissolved, Mackinac lost its character as a field for mission work, and the building and the grounds about it were sold. The old church passed through a somewhat precarious existence until some of the cottagers and islanders bought it.

Murders Wyatt Williams.

Wyatt Williams, a former cattle king, well known in Chicago, St. Louis and the west, was murdered on Main street, Ardmore, I. T., the other night in cold blood by Bud Watkins, a half-blood Indian, aged 24 years. The murderer was captured after a sensational chase and lodged in jail. The shooting took place one block from the Santa Fe depot. Some bitterness had existed between the two men, and Watkins says he shot in self-defense. This assertion, however, is denied by half a dozen witnesses, all of whom say Williams was shot twice before he pulled his revolver, and that as he fell dying he fired one shot, which went amiss. Williams died almost instantly. During the excitement Watkins made his escape, but was quickly pursued by United States Marshals Booker and Tucker, assisted by C. D. Carter, who with a rifle at the head of the prisoner forced his surrender. Williams was once among the largest and wealthiest stockmen in Texas. He leaves a widow and four children.

She Sleeps Under Water.

A unique case in the annals of medicine is that of Mrs. Taylor Young, of Moorehead, Ky., who has been for weeks confined to a bed of water. Her peculiar trouble and remarkable treatment are attracting wide attention in the medical world. During the summer Mrs. Young was injured by the accidental discharge of a revolver. The ball penetrated the chest and lodged against the spine. During her treatment she was so sensitive that she could not bear the pressure of a bed, and so one of water was devised. The water is kept at a temperature of 98 degrees, an important factor in her treatment. She is suspended in the water by means of straps, which bear upon portions of her body where she is the least sensitive. An inflated rubber bag is submerged, and is buoyed up just enough to sustain her weight.

Shot His Sweetheart.

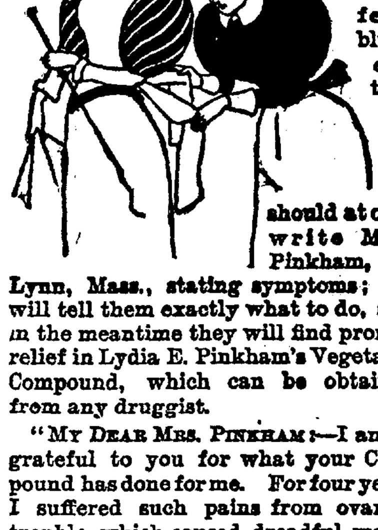

Philip Zimmer, aged 24, and a blacksmith, attempted to kill his sister, shot his sweetheart, Celia Vietz, in the abdomen, and then put a bullet through his own heart at the Vietzs' girl's home ta his home in St. Louis the other day. Zimmer's action can only be accounted for on the supposition that he was insanely jealous of the girl he shot.

He had been going with her for three years, and was madly in love.

Before the shooting Zimmer asked Miss Vietz to marry him and leave the city, but she refused to do so.

GIRLS IN STORES,

offices, or factories, are peculiarly liable to female diseases, especially those who are constantly on their feet. Often they are unable to perform their duties, their suffering is so intense.

When the first symptoms present themselves, such as backache, pains in groins, headache, dizziness, faintness, swelled feet, blues, etc., they should at once write Mrs. Pinkham, at Lynn, Mass., stating symptoms; she will tell them exactly what to do, and in the meantime they will find prompt relief in Lydia E. Pinkham's Vegetable Compound, which can be obtained from any druggist.

"MY DEAR MRS. PINKHAM:—I am so grateful to you for what your Compound has done for me. For four years I suffered such pains from ovarian trouble, which caused dreadful weakness of the limbs, tenderness and burning pain in the groins, pain when standing or walking, and increased pain during menstruation, headache and leucorrhœa. I weighed only 92 pounds, and was advised to use your Vegetable Compound, which I did. I felt the benefit before I had taken all of one bottle. I continued using it, and it has entirely cured me. I have not been troubled with leucorrhœa for months, and now I weigh 115 pounds."—LILLIE HARTSON, Flushing, Genesee Co., Michigan. Box 69.

Eczema ON BABY

Grew Worse under Treatment of Best Physicians. Tried

CUTICURA REMEDIES

Great Change in Five Days and To-day is Entirely Cured.

My baby had Eczema in its worst form. One of the best physicians in the city attended her, but she continued to get worse all the time. He finally admitted he was at his wits' end. I then got CUTICURA REMEDIES, and in *a few days noticed a great change in her condition.* She continued to improve and *to-day is entirely cured*, has nice head of hair, and is lively and hearty. I spent considerable money for drugs and doctor's bills, which was useless. J. B. JACOBS, 2031 Wilkins Ave., Balt., Md.

SPEEDY CURE TREATMENT.—Warm baths with CUTICURA SOAP, gentle applications of CUTICURA (ointment), the great skin cure, and mild doses of CUTICURA RESOLVENT, greatest of humor cures.

Sold throughout the world. Price, CUTICURA 50c.; SOAP, 25c.; RESOLVENT, 50c. and $1. POTTER DRUG AND CHEM. CORP., Sole Props., Boston. "How to Cure Every Skin Humor," mailed free.

WOMEN'S WINTER UNDERWEAR.

One of the delightful things about the present cheapness of Underwear is that it permits so many to enjoy the luxury of wool for underwear as well as the close ribbed Cotton Jerseys with their fine soft knap. Makers of underwear now consider health, and select those threads of wool and cotton of well known purity, and only that kind finds a place on our underwear counters.

Ready For Winter Selling.

THE ELECTION is OVER

Now go ahead, provided you are headed right. Much depends on a start in the right direction. Habit soon fastens itself upon you; this is as true of a good habit as a bad one. Bad habits are costly. Many a man like the "Prodigal Son" has wasted his substance because he contracted the habit of buying his clothing at the wrong place. Do not run any risks. Do not take any chances. You will be all right if you get in the habit of buying your clothing HERE.

Men's Suits.

At some stores it's all a matter of price. If you object to the looks or the style of a low priced suit they say, 'Oh, if you want a stylish suit you must pay more.'

It's different at our store—you pay what you please, but you get the style all the same You get it at

$10 the Suit.

Also at $12

Likewise at $15.

More money gets better goods, but the cut the make, the style, is all there, whatever you pay.

OVERCOATS.

Better not buy until you see ours Doing otherwise will give you a chance to regret something We do not care whether you wish to put $5 or $25 in an Overcoat, we can save you money on it. Get the coat and you have the proof.

CHILDREN'S SUITS

You wish to have the boys well dressed, you want their clothes to fit to look neat and stylish; you have often wondered why you have so much trouble to get your boy dressed so he will look as well as your neighbor's boy. The reason may not be hard to find. Your neighbor buys her boys' clothes HERE. Boys are a specialty here. Care and attention to detail mark the conduct of our Children's Department. Our line of Suits at $2 50 to $5 00 cannot be matched in North America, nor South America, either

Reefers and Cape Overcoats.

Any quantity of them, all styles of them, elegantly braided and trimmed if you wish them, plainer if you so desire. Prices from $2 to $5.

There is money to be made by visiting our store before buying clothing of any kind.

FREE—Foot Balls with all Boys' Suits and overcoats at $3.50 or over.

No Campaign Within our Memory has been Conducted with so much Good Feeling, as the one that has just Closed.

That's the right kind of American citizenship. We cannot all see alike and it isn't best that we should. It is through the clash of ideas that the truth is finally established. If error wins it is only for a day. Truth alone is immortal. The courage of one's convictions is always admirable. It wins the respect of friend and foe alike. The conflict over the real soldier's soon fraternize. It is only the stay-at-homes that want to do the fighting after peace is declared.

NOW FOR BUSINESS.

The uncertainty over it is sure to improve. All parties are agreed as to that. Millions of money, hoarded by the poor, will now find its way back into industrial channels. An early session of congress will, by proper legislation, add to the nation's revenues sufficient to meet the current expenses of the government. Prices will make a healthy advance and labor find more steady employment. There's a good time coming and we expect to be in it.

COXEY BOBS UP

With a New Doctrine for 1900.

Demonetization of Gold as Well as Silver.

State and Municipal Ownership of Public Works—National Convention Called for Jan. 12.

CLEVELAND, Ohio, Nov. 10.—J. S. Coxey, of commonweal fame, is on the ground floor with a new doctrine for 1900.

It is a platform which declares for the demonetization of gold as well as silver, state ownership of all railroads, highways, waterways and telegraph and telephone lines; municipal ownership of all street car lines, waterworks, market houses, electric light and gas plants; employment of surplus labor in public works; women's suffrage; state control of liquor traffic and election of president by direct vote of people.

Coxey has called a conference of all friends of the initiative and referendum and advocates of the above principles of government. He believes that national banks should loan money to the people at cost, and this principle, he says, will be incorporated in the platform to be adopted in the parlors of the Lindell hotel, St. Louis, Jan. 12 1897. All who favor the principles above set forth are urged to attend the St. Louis convention.

THOMAS F. BAYARD.

English People Compliment Our Ambassador.

LONDON, Nov. 10.—The United States ambassador, Mr. Thomas F. Bayard, in an interview with a representative of the Associated Press, today, expressed warm appreciation of the cordiality of his reception last evening at the Guildhall banquet and, incidentally, expressed the opinion that the United States law of twenty years' possession will prevail in the case of the settlers in Venezuelan disputed districts.

The St. James Gazette this afternoon, noting the approaching retirement of Mr. Bayard from the post of ambassador of the United States to the court of St. James, says: "Without reflecting upon his predecessor, it is safe to say that no American minister since Russell has been so thoroughly acceptable to the English people and London society. Where all recognized that he had no easy task, he has worked strenuously, devotedly and passionately, yet as a patriotic envoy should, for the continuance of the friendship of both branches of the English speaking race."

NO LIQUOR LAW.

A Part of the Constitution Repealed in South Dakota.

ABERDEEN, S. D., Nov. 10.—As the prohibition law of the state was enacted to prescribe regulations for the enforcement of the provisions of article 24 of the constitution of the state of South Dakota, entitled "prohibition," it is maintained by several local attorneys and ex legislators that the law, so dependent upon the constitution, was to all intents repealed by the vote on Tuesday which repealed the prohibitive article; in other words, that South Dakota has no law calculated to regulate the manufacture and sale of intoxicating liquors. These authorities are inclined to hold that the state will be in this position from the time the official canvass of the vote is announced until the legislature meets in January and enacts a license law or makes some provision.

BOY AND GIRL ELOPE.

John Tolley Runs Away With Frankie Shaffer.

KOKOMO, Ind., Nov 10.—John Tolley, aged seventeen, and Miss Frankie Shaffer, aged fifteen, children of prominent farmers, of Clay township, who were at outs, disappeared from school Friday afternoon, and yesterday they were married coming first to this city, where a license was obtained, then going to Elwood. The youngsters, who have been lovers from babyhood, attended the same school, and, despite the protests of parents, frequently secretly met. They left school in a buggy. The youthful bride and groom are yet at Elwood, anxiously awaiting the parental forgiveness.

LIBEL SUIT IS DISMISSED.

Helen M. Gougar's Case Against E. A. Morse Brought by the Waysido.

BOSTON, Mass., Nov. 10.—In the United States circuit court of appeals today the famous libel suit of Helen M. Gougar vs. Elijah A. Morse was dismissed for want of prosecution. In this case, which began more than four years ago, two verdicts have been rendered after protracted trials. At the last trial the plaintiff excepted to Judge Putnam's rulings, but now has failed to prosecute her exception in the appellate court. The result is that the verdict below is sustained and judgment in the case follows for Mr. Morse.

WILL FIX KANSAS.

Legislature Will Pass a Congressional Reapportionment.

KANSAS CITY, Mo., Nov 10.—When the Kansas legislature convenes this winter the first thing on the program, after the election of a United States senator to succeed Peffer, is to push a congressional district reapportionment bill through. The plan of the democrat-populist members, who will control the legislature, is to divide the state into eight districts, instead of seven as at present, and to so arrange the districts as to make seven of them safely populist. Far-sighted politicians see in this an opportunity of electing a populist senator to succeed United States Senator Lucian Baker, thus gaining both members of the senate and all but one of the congressmen. The bill is said to be now in the course of construction.

CANADIAN RECIPROCITY

Is One of the Probabilities of the Future.

The Commercial Interests of the Dominion Said to Favor Such a Treaty.

MONTREAL, Quebec, Nov. 10.—The statement made in New York by Hon. W. S. Fielding, Canadian financial minister, that efforts will be made by the Canadian government to secure a treaty of reciprocity with the United States as soon as President-elect McKinley shall assume office at Washington, has awakened the greatest interest among business men in Montreal and throughout Canada.

The commercial interests of the dominion, regardless of politics, are almost a unit in favor of a renewal of what was known as the Elgin reciprocity treaty of 1854, and it is believed that when the representatives of the Canadian government visit Washington next spring they will endeavor to secure reciprocial legislation along the lines of that treaty.

IN THE MAUSOLEUM

Now Repose the Remains of Mrs. Vanderbilt.

All the Eight Children of the Good Woman Follow Her to the Tomb.

NEW YORK, Nov. 10.—Funeral services over the remains of Mrs. Wm. H. Vanderbilt were held today at St Bartholomew's church. All of the eight children of Mrs. Vanderbilt were present. There were present also the grandchildren of Mrs. Vanderbilt except Cornelius Vanderbilt, jr., Consuelo, duchess of Marlborough, and Mrs Henry Payne Whitney, all of whom are in Europe. The Rev. Dr. D. H. Greer, rector of St. Bartholomew's, officiated, assisted by Bishop Potter, the Rev. Dr. John Wesley Brown rector of St. Thomas church, and the Rev. Dr. Eggleston, rector of the church at New Dorp, S. I. After the ceremonies, a feature of which was the music under the direction of R. H. Warren, the remains were taken to New Dorp and placed in the Vanderbilt mausoleum.

FARMERS' CONGRESS.

The Sixteenth Annual Session Now Being Held.

The Attendance Small, But Interest Deep—Governor Matthews Welcomes the Delegates.

INDIANAPOLIS, Nov. 10.—The sixteenth annual session of the farmers' national congress began at 10:30 a. m. today in the Indiana hall of the house of representatives. There were about seventy persons present, but the later sittings are expected to show a larger attendance. The general opinion of those interested in the congress was that the meetings should have been held before, rather than after, the presidential election, and that had this been the case the attendance would have numbered several hundred. The members present were representatives and leaders in the cause of agriculture. The congress was called to order by the president, B. G. Clayton, of Indianola, Iowa. Mayor Taggart delivered an address of welcome.

Response was made by the secretary, J. M. Stahl, of Chicago. He said that upon one occasion the proposition had been made to throw him out on the assumption that there were no farmers in Cook county, Illinois, as that county is Chicago. He said he kept his place by showing that the farm products of Chicago exceeded those of each of more than twenty counties in Illinois. "We came here," said the secretary, "to labor for the farmer, and yet we do not forget the men in the mine, in the shop or in the banks. We recognize the independence of all industries and that when the industries of the cities languish our agricultural industries fail."

J. G. Kingsbury, of Indiana, spoke a welcome on behalf of the press. He gave figures to show the agricultural standing of Indiana and that she stands sixth in corn, and in 1892 ranked second in wheat. J. G. Offutt gave a welcome on behalf of the farmers of Indiana. He said: "We are looking forward to this congress with a great deal of anxiety and desire. We farmers find ourselves in a very straightened condition; we find that many farms are plastered over with mortgages."

L. S. Coffin, of Iowa, said that his state is more largely agricultural than almost any other state. He did not come to the congress with a doleful voice. Iowa farmers were out of debt, as a rule, he said, and but a very small per cent. of Iowa farms are mortgaged. Governor Matthews then welcomed the congress on behalf of the state. President Clayton was then introduced and delivered his annual address.

Mrs. Levi C. Smith and Miss Dora Brower, of Pierceton, Ind., were in the city yesterday, the guests of their brother, Cole Brower.

GIVEN HER RELEASE.

The Prison Doors Were Opened to Mrs. Castle.

Because of Her Mental and Physical Condition—Was Guilty of Shoplifting.

LONDON, Nov. 10.—Mrs. Walter M. Castle, of San Francisco, who was sentenced at the Clerkenwell sessions on Friday last to three months' imprisonment without hard labor, after having pleaded guilty, by the advice of counsel, to the charge of shoplifting, was released from Wormwood Scrubbs prison today on medical grounds, by order of the home secretary, Sir Matthew White Ridley. The commissioners of prisons, it appears, directed the medical board to inquire into and report upon the health of Mrs. Castle, whose condition was causing anxiety to the prison authorities. She was watched day and night by special attendants in the infirmary and was shown every attention possible. The commissioners after receiving the report of the medical board on the state of Mrs. Castle's health, communicated with the home secretary who promptly ordered her release from prison and that she be placed in the care of her husband, who has undertaken to take her back to the United States with the least possible delay.

Mr. Castle called at the home office at 11 o'clock this morning and was there informed that his wife would be released at 1 o'clock. Accompanied by a nurse he entered a carriage and drove to Wormwood Scrubbs prison, where he arrived at 12:45 p. m. The jailers ushered him into a waiting room and after a brief delay Deputy Northy granted the usual permission for the carriage to enter the gates and drive to the door of the hospital of the prison. There Mr. Castle and the nurse alighted and went to the door. A few moments later Mrs. Castle, dressed in deep black, was almost carried out of the hospital by the female attendants. She was deathly pale, her face was tear stained, she appeared to be on the verge of collapse and sank fainting into her husband's arms. He tenderly embraced her and tried to console her. The nurse enveloped Mrs. Castle's face in a heavy veil, wrapped her up in a shawl and assisted her to the carriage, where her head fell on her husband's shoulder and she sobbed hysterically. As the carriage passed out of the prison gates the driver applied his whip and drove rapidly away.

While Mr. Castle was in the waiting room of the prison, he was interviewed by a representative of the Associated Press. He said: "I feel twenty years younger, and as though the nightmare of the past month had vanished. My wife was informed last night that I would come for her today. She was utterly prostrated yesterday. I shall immediately retire to the country, place my wife under a doctor's care, and endeavor to restore her health, in order to permit of her speedy return to America. I desire especially to thank the Associated Press, for its kindness to me and mine and for the manner in which it has placed the matter before the American newspapers."

Bernard Abrahams, of counsel for the Castles, received the following note from the home office last evening:

"The prisoner, Ella Castle, will be released on account of her mental and physical condition and other circumstances.

(Signed.) DIGBY,

"Under Secretary."

WASHINGTON, Nov. 10.—Ambassador Bayard today cabled Secretary Olney as follows from London: "Mrs. Castle released. Leaves for America in her husband's custody."

PECULIAR CASE OF POISONING

Young Woman Found Dead in a Buggy With the Man She Loved.

INDIANAPOLIS, Nov. 10.—A peculiar poisoning case is reported from Kingman, a small village of Fountain county. Miss Addie Derby, a young woman of that village, hired a horse and buggy from a livery stable for a drive in the country to call upon John Barker, whose attentions she had been receiving. Not returning at a late hour, her uncle went in search of her, and a few miles distant he met the couple in the buggy and spoke to them. Receiving no answer he began an investigation, whereupon Barker jumped from the vehicle and ran away. Further examination showed that the girl was lying in the bottom of the buggy, apparently dead. Friends removed her to Kingman, where the physicians pronounced her case one of poisoning. Barker has not been seen. It is thought the girl will die.

NEW THEATER AT WASHINGTON.

Columbia is Opened With a Presentation of "Il Trovatore."

WASHINGTON, Nov. 10.—The new and handsome Columbia theater in this city was dedicated last night by H. Grau's Metropolitan English Opera company, before a fashionable audience.

The auditorium was artistically decorated in green, gold and bronze, seats 1,400, and the gilt prosenium frame is flanked on each side by six boxes draped with yellow damask.

"Il Trovatore" was the opera. Janueschowsky, Payne Clark, Lizzie MacNichol and William Mertens sang the leading roles. The opening was an artistic and financial success.

Using Foreign Capital.

SAN FRANCISCO, Nov. 10.—Ex-United States Senator Stephen W. Dorsey has just arrived direct from London. For several years his home has been in Denver and for a year and a half past he has been interested in a large group of gold mines near the Colorado river, twenty-eight miles from Yuma, in southern California. He went over to London to get money to develop the mines. He succeeded and will now erect a 100 stamp mill and employ 400 to 500 men.

WILL SETTLE.

Great Britain and Venezuela Arriving at a Conclusion.

The "Good Offices" of the United States Had a Strong Bearing Upon the Dispute.

WASHINGTON, Nov. 10.—The Venezuelan commission has authorized the following official statement: "The statements of Lord Salisbury as reported in the morning papers makes it probable that the boundary dispute now pending between Great Britain and Venezuela will be settled by arbitration at an early day. Under these circumstances the commission, while continuing its deliberations in the preparation and orderly arrangement of many valuable maps, reports and documents which have been procured and used in the course of its labors, does not propose to formulate any decision for the present of the matters subject to its examination. It will continue its sessions from time to time, but with the hope and expectation that a friendly and just settlement of all pending differences between the nations interested will make any final decision on its part unnecessary."

3:30 p. m.—The arbitration of the Venezuelan dispute is a settled fact. All arrangements have been completed and all details of the arbitration treaty between the United States and Great Britain arranged. The final terms of the treaty of arbitration were arranged in this city last night. The terms were cabled to London and have been accepted. The treaty covers Venezuela only and does not include a treaty of arbitration of all future disputes between the two great English speaking nations. This treaty is to be arranged later by future negotiations. The Venezuela arbitration commission will consist of five arbitrators, two to be named by the United States, two by Great Britain, these four to select the fifth arbitrator. Venezuela will not be directly represented on the commission.

CONGRATULATIONS.

General Harrison Writes to Major McKinley.

Hopes He May be Given Wisdom to Establish the Prosperity of the Nation.

CANTON, Ohio, Nov. 10.—The usual steady stream of callers were at the McKinley home today. Among the first to arrive this morning were Judge A. L. Morgan, of New Mexico, and Hon. Wm M. Hahn, who had charge of the speakers' bureau at the Chicago headquarters of the national committee. At 9:30 the president elect, with several friends, started for a drive in the bracing November air. At 10:21 they drove to the Pennsylvania station, where Major McKinley stepped into the train yard and onto the special car of the Chicago newspaper men, who toured to New York and Washington. Informal greetings were passed and a chat of ten minutes passed. Upon returning to the home he found a good sized crowd waiting to greet him. Among the congratulations the following letter has been received by Major McKinley from ex-President Harrison:

"The use of the mails instead of the wires as the carrier of my congratulations does not imply that they are less, but rather, that they are more thoughtful and deliberate. It is a great honor, indeed, when a personal success is identified with a great national triumph. The issues forced to the front by the Chicago platform put the fight on such lines that the republican party could use the old breastworks, and make an unfailing appeal to the patriotism of the south as well as the north. I sincerely hope that you may be given the wisdom and strength needed in this emergency to restore and establish the prosperity of the nation."

Chess Challenge.

NEW YORK, Nov. 10.—Showalter, the chess expert, has telegraphed from Georgetown to friends in this city that he will challenge H. N. Pillsbury to play a match. A cablegram from London yesterday to the Associated Press reported Pillsbury as saying that he was anxious for a match with Showalter but questioned his own right to challenge the latter.

Incendiary Fire.

HAMLIN, W. Va., Nov. 10.—Incendiaries fired James Abbott's house last night. Cora, his daughter, aged twenty, was burned to death. She was recently acquitted for the alleged blowing up of 'Squire Ryan's house with dynamite killing one and injuring others.

GIGANTIC SCHEME.

A Project to Establish a Round-the-World System.

Marshall Field Heads a Party of American Capitalists Who Will Furnish the Means to Push the Enterprise.

SAN FRANCISCO, Nov. 10.—A great projected enterprise is once more attracting attention here, at San Diego and in Chicago, New York and Philadelphia. It is the heavily backed proposition of a number of American capitalists to establish on the Pacific a magnificent steamship line with such railway arrangements in the United States and such connection with the new trans-Siberian line as will make it a vital and effective part of a great round the world system of communication. This new proposition which has long since passed the stage of preliminary discussion, bids fair to be in full operation before any Pacific port has welcomed the first of the much talked of Japanese liners. The project had its inception in Chicago, and among its most enthusiastic supporters are Marshall Field, the millionaire dry goods man, and other Chicago millionaires. The New York end of the enterprise is being taken care of by E. C. Potter & Co. In Philadelphia, the concern is supported by William Cramps & Sons, the ship builders.

It is the intention of these capitalists to establish a new trans-Pacific line superior to anything afloat. Their plan calls for the construction of a number of steamers of not less than 8,000 tons burden and of twenty knots speed, which will make them eligible to the benefits of the United States mail subsidy of $4 per traveled mile. The distance from the California coast to Hong Kong is 7,000 miles and thus each steamer would be entitled to a bonus of $28,000 for a single trip. It is proposed to begin the enterprise with four twin screw steamers, capable of carrying 5,400 tons of freight, 500 first class passengers and 1,200 steerage passengers. As originally proposed the line was to run from San Diego to the ports of China and Japan, but since then an agent of the company has come to the coast and opened negotiations to make San Francisco the terminus on this coast.

TRAMP'S HEROIC DEED.

Prevents the Destruction of an Express Train.

Train Wreckers Place Nitroglycerine and Dynamite Upon the Tracks to Blow Up the Train.

CINCINNATI, Nov. 10.—A special from Washington, Ind., says a tramp saved an express train from being wrecked by dynamite, a short distance east of Mitchell, Ind. The story is that the tramp, about 1 a. m., found enough dynamite and nitro-glycerine placed on the track to blow the engine to pieces as soon as it struck it. Having no other mode of signalling, he ran to the nearest switch, tore off the lamp, and, returning, signalled the train. As he was doing so he was shot at by the wreckers and was found unconscious by the trainmen. The officers of the Baltimore and Ohio Southwestern are inclined to doubt the tramp's story, as they have no information of his being wounded, nor of his having shown any dynamite. However, they have ordered bloodhounds to the scene and will investigate the matter.

FIND OF SKELETONS.

Bones of Aborigines Unearthed Near Anderson, Ind.

ANDERSON, Ind., Nov. 10.—Within the last few weeks, and especially in the last few days, a great deal of attention has been attracted to several finds made in the vicinity of the Indiana mounds. These finds have consisted of skeletons of a very large build, indicating aborigines of great size. The most noticeable peculiarity, however, lay in the fact that the tops of the skulls, just above the ears, were sawed off, as though the brain had been removed at burial. It was also found that in many of them there was a fifth bone, seldom found in skulls of the present day. The skulls were of a good stamp, indicating that the intellect of the aborigines was far superior to that of the Indians. Such finds were also made near Montpelier several days ago.

BAPTIST CONGRESS.

Representative Men of the Church at the Meeting.

NASHVILLE, Tenn., Nov. 10.—The Baptist congress began its fourteenth annual session at the First Baptist church this afternoon, and will close its labors Thursday night. Delegates from all portions of the United States are in attendance and the session promises to be one of the most important in the history of the organization. Many questions of much interest will be discussed by eminent Baptists. Addresses of welcome were delivered at the opening session by Rev. J. B. Hawthorne, pastor of the First Baptist church, and Capt. A. J. Hardis, president of the chamber of commerce. The delegates will visit the Tennessee centennial exposition grounds tomorrow morning.

Cotton Market.

NEW YORK, Nov. 10.—The cotton market opened firm at an advance of two to four points on receipt of favorable cables from Liverpool, and decidedly firmer markets. Local and German houses bought on the theory that the top crop has been killed by the heavy frosts. Later prices fell off three to five points on lower Liverpool cables. At 11 o'clock the market was barely steady at a decline of one to two points.

IN HONOR OF "MAC."

Republicans Celebrate Their Party's Victory.

Dismal Weather Dampens the Enthusiasm—Big Time Expected Tonight.

The republican ratification today has not turned out to be a big success so far, but the managers have a hope that fires of enthusiasm will be kindled simultaneously with the big bonfires on the jail flats this evening.

The weather today has been against any kind of a demonstration, and moreover many workingmen are not going to lose their time in order to celebrate a victory won a week ago.

A parade was held at noon, but it was not larger than some of the ordinary turnouts during the campaign. There were a few scattering delegations from the country, a number of political clubs, citizens, wagons and a few floats.

After the parade a fair crowd gathered at Princess rink to hear addresses by Col. R. S. Robertson and J. B. Harper.

The republican managers say that the outburst of enthusiasm tonight will fully atone for the light showing made today. Bonfires on the jail flats will send their glare to the heavens, numerous bands and drum corps will stir the patriotic breast and a grand parade will cover an extended line of march as far east as Hanna street and as far west as College street. Fireworks will be set off about 9 o'clock.

The above program will be carried out unless it rains and in that event a "thanksgiving and praise" service will be held at Princess rink.

LOCAL LINES.

OVERCOME BY GAS.

Henry Fisher, Gus Yergens and John Engmann the Victims.

They Are Found Insensible Under the Influence of the Deadly Fumes—Their Lives Barely Saved.

Deadly fumes of half burnt natural gas nearly took the life of three men in the bath rooms of Dr. John Schilling in the Lau block yesterday and but for the opportune arrival of A. L. Schroeder, who occupies adjoining rooms, results would have been fatal.

The bath rooms are presided over by Professor Henry Fisher, who personally attends the male patrons of the place. Yesterday between 11 o'clock and noon Gus Yergens, late manager of the Branzinger bakery, and John Engmann, of 133 West Jefferson street, were given a bath and the accustomed treatment usually applied in their cases. After the bath they reclined on couches in one of the apartments of the bath house. Professor Fisher sat in a chair reading a newspaper while the two men dozed. An almost imperceptible odor of gas was noticed by Mr. Fisher but he attached no importance to the fact. Had he known that at this moment deadly carbonic oxide gas was pouring its suffocating fumes into the room from a defective stove, he would have acted quickly and with alarm. It was not until ten minutes later, when he had become dazed under the influence of the gas, that he became conscious of something seriously wrong.

At the time the men, Yergens and Engman, were unconscious from the effects of the gas. Mr. Fisher, with great difficulty, arose to his feet, but he was so completely overcome by dizziness that he fell to the floor. He made another effort and succeeded in staggering to the door of a stairway leading to his private apartments upstairs. Step by step he dragged himself up, until near the top landing, when he fell backward almost to the bottom.

A few minutes later A. L. Schroeder, secretary of the Fidelity Benevolent association, came into the bath rooms to see Mr. Fisher on a business matter. If he had put off his visit a short time longer he would have walked in upon a scene of death.

Much alarmed by the sight of three unconscious men, and detecting at once the deadly gas fumes, Mr. Schroeder summoned assistance and had the men removed to Dr. John Schilling's office.

It required several hours hard work to resuscitate the victims of the asphyxiation and it was some time after they regained consciousness that they were wholly out of danger.

CHARGED WITH THEFT.

Charles Lang is in Rather a Tight Fix.

He is Accused of Taking Edgar Lewis' Overcoat—News in Police Circles.

Charles Lang, a stranger in the city, was arrested by Sergeant Daseler last night on the charge of stealing a coat belonging to Edgar F. Lewis. Daseler learned that Lang had pawned the missing garment and soon located his man at the "Five Cent" house, where he was spending the proceeds of his ill-gotten gains in whisky. The case was continued by the mayor until tomorrow morning.

POLICE NOTES.

Arthur Burns, for drunkenness, was up before his honor this morning, and was sent to jail for fifteen days.

Mrs. George Sheridon, of Georgiain, reported at police headquarters today that a basket of butter had been stolen from her wagon. Several other farmers' wives reported similar losses, so it is evident that some one is making a specialty of butter pilfering.

NEW SIDEWALKS.

Several Streets to be Improved This Fall.

The board of public works met yesterday afternoon, and took action on the project of completing the fill of the old gravel pit at the entrance to Swinney park. The terms of the deed provide that the work shall be done by the first of next month.

The work of paving Wells street, from the river bridge to a point sixty feet north of the Lake Shore tracks, has been completed and was accepted by the board. That part of the street extending from the railway tracks to Huffman street is almost finished.

The sidewalks on the east side of Walton avenue from Wayne trace to Maumee avenue, is also completed and was accepted.

The board approved the bonds submitted by the following persons:

Andrew Krock, for raising and relaying a sidewalk on West Wayne street; August Riethmiller, for laying by private contracts sidewalks on Taylor street, and Charles Schrack, for laying sidewalks on West Wayne street.

A resolution for the construction of sidewalks on the west side of Force street, from Pontiac street to Ninth, was adopted. This is in Alderman's addition and is in compliance with the requests of the property owners of the vicinity.

The Grand Lodge of Odd Fellows has decided to build a nine story building costing about $200,000. The building will be of modern style of architecture, the plans of which are now under consideration by a subcommittee, which will make a definite report to the grand lodge, which meets next week. There has been some complaint from the lodges throughout the state against the erection of this building, fearing that assessments would be made. In order to overcome this feeling of objection the building committee has decided to issue bonds, and in this way raise the necessary funds without making assessments.

DIED OF DIPHTHERIA.

Miss Sarah Klinger, a Young Lady, Succumbs.

William Baral Died at Cleveland and His Body is Brought Home for Burial.

Miss Sarah L. Klinger, aged eighteen years, died last night at the residence of her parents, 13 Huffman street, of diphtheria. The funeral was held this afternoon and the remains were interred at Hatfield cemetery.

William, son of Mr., and Mrs. J. Baral, of St. Joe township, died Sunday night at Cleveland, Ohio, where he has been employed for several years. The remains were brought home today and the funeral will take place tomorrow afternoon from the Lutheran church near his home.

SUPREME KNIGHTS.

High Officers of a Catholic Insurance Order

Now in the City for a Semi-Annual Inspection of the Supreme Secretary's Books.

A distinguished party of Catholic Knights of America are in the city today. They are supreme officers of the insurance branch of the order and their business here is to make a semi-annual examination of the books of the supreme secretary, W. S. O'Rourke.

There here are Edward Feeney, supreme president, Brooklyn, N. Y.; C. S. Ott, supreme vice president, Galveston, Texas; C. J. Kirschner, supreme trustee, Toledo, Ohio; Richard Walsh, St. Louis; J. C. Carroll, Norfolk, Va., and E. D. McGinnis, Providence, R. I., supreme trustees.

So far as the committee has gone they have found the books in excellent shape and kept under a system that must reflect great credit upon Mr. O'Rourke.

Mr. Kirschner, the supreme treasurer, in conversation with a SENTINEL reporter said the order is stronger now than ever before in its history and is a blessing to its thousands of members, who are thus provided with a heritage for their families at a small expense.

EVANGELISTIC SERVICES

Being Conducted at the West Jefferson Street Church of Christ.

At the West Jefferson street Church of Christ evangelistic services are being conducted by the pastor, Rev. P. J. Rice, assisted by the noted evangelistic singer, Fred A. Thomas. The music, under the direction of Mr. Thomas, will be a prominent feature of each service. Tonight Archie Stout, of Chicago, will also assist in the singing. The sermons will be strictly of a gospel character. Tonight the subject will be, "What Christians May Do to Save the Unsaved." Other subjects will be as follows: "What God Has Done to Save the Unsaved," "What Christ Has Done and is Doing to Save the Unsaved," "What the Holy Spirit Has Done and is Doing to Save the Unsaved," and "What the Unsaved Must Do to Save Themselves." The pastor and church extends a cordial invitation to the public.

GEORGIA'S SENATOR

Is Still a Matter of Much Perplexity.

ATLANTA, Ga., Nov. 10.—The two branches of the general assembly met in joint session in the hall of the house today and began balloting for United States senator. The democratic caucus having failed to make a nomination after twelve ballots last night, the vote today was a mere formality, gone through with to comply with the law. The democrats scattered their ballots as in the caucus, the populist minority voting for Gen. William Phillips, of Cobb county, and there was no choice. The democratic caucus will resume its sitting at 3 o'clock this afternoon.

The Evening Sentinel.

BY E. A. K. HACKETT.

TUESDAY, NOV. 10, 1896.

THE wheat harvest of the world shows a decrease this year of 185,485,542 bushels as compared with that of last year.

CHICAGO is crowing over the size of her vote. Her presidential ballots numbered 346,775, and she places alongside of this number the vote of New York city, which was 299,120.

KENTUCKY wavered for a long time, but at last it dropped into the McKinley column. Its electorial vote was not needed to insure the election of the republican candidate for president.

THE kind of a campaign that everybody should enter upon, wisely suggests the South Bend Times, is a campaign for making business lively and profitable, for securing remunerative employment to labor and for securing general prosperity to the 70,000,000 inhabitants of this great country.

S. E. NICHOLSON, who has just been re-elected to the legislature by the republicans, has announced that he is a candidate for speaker of the house. He is the author of the Nicholson temperance law and president of the State Good Citizens' league, an organization formed to enforce the saloon law of the state.

WOMEN voted for electors for president and vice president this year in three states of the union. In Colorado, Wyoming and Utah they were on completely equal terms with men in the exercise of the franchise. It is claimed that in five times out of six the women, if married, join the party to which their husbands belong; or if unmarried, that to which their fathers, brothers or lovers may be allied.

J. FRANK CALLEY, secretary of the Licensed Saloonkeepers' league of Indiana, has issued a circular letter to the saloonkeepers of the state, calling upon them to organize, that legislation detrimental to their business may not be possible in the next legislature. The address has been circulated freely. It begins by saying that "at no time in the history of the trade in the state have such dangers from fanatical busy-bodies confronted us as at present." Further it is charged that unless the saloonkeepers organize and take steps to prevent it, legislation may be expected that will cripple the industry and ruin trade and investments.

DISCONTENTED young men, who are unhappy because they accumulate money so slowly, ought to read the sentiments of Andrew Carnegie, the well known millionaire, as he is reviewing the poverty and hard toil of his early life. He says: "You know how people are all moaning about poverty as being a great evil, and it seems to be accepted that if people only had money and were rich that they would be happy and more useful and get more out of life. There was never a graver mistake. As a rule there is more happiness, more genuine satisfaction and a truer life in the humble cottage of the poor than in the palaces of the rich."

THE annual report of Captain N. M. Brooks, superintendent of foreign mails, shows that the aggregate weight of the mail dispatched from this country by sea to other countries during the past fiscal year was 5,288,914 pounds, of which over 4,500,000 pounds were trans-Atlantic. It is pointed out that the postage collected by the government on articles exchanged with foreign countries largely exceeds the gross expense incurred by the department in connection with that service. The sum of $5,294,756 was received by this country for mail exchanged with other countries. Only 1,316 errors were reported in the distribution of 11,519,373 letters and postal cards. The net excess of cost of the contract ocean mail service was $453,386. Action is recommended on the questions of the extension of the parcels post system; the reduction of the registration fee to five cents and on that of a limited responsibility for registered articles lost or destroyed in the international mails in transit through the United States.

THE crown and glory of life is character. It is the noblest possession of a man constituting a rank in itself, and an estate in the general good will; dignifying every station and exalting every position in society. It exercises a greater power than wealth, and secures all the honor without the jealousies of fame. It carries with it an influence which always tells; for it is the result of proved honor, rectitude and consistency—qualities which, perhaps more than any other, command the general confidence and respect of mankind. Character is human nature in its best form. It is moral order embodied in the individual. Men of character are not only the conscience of society, but in every well governed state they are its best motive power; for it is moral qualities in the main which rule the world. Even in war Napoleon said: "The moral is to the physical as ten to one." The strength, the industry, and the civilization of nations—all depend upon individual character, and the very foundations of civil security rest upon it. Laws and institutions are but its outgrowth.

TAKES THE FIELD.

General Weyler Goes Out to Fight the Cubans.

Is Headed Towards the Strongholds of the Enemy, in the Province of Pinar Del Rio.

HAVANA, Nov. 10—Captain General Weyler has taken to the field in person against the insurgents under Antonio Maceo in the province of Pinar del Rio and reliable news received from the front indicates that the Spanish columns are approaching close to the enemy. General Weyler left Havana on board the cruiser Legaspy half an hour after midnight, his destination being the port of Mariel, province of Pinar del Rio. From Mariel, it is understood, the captain general will go southward by the highway to the town of Artemisa, and along the line of the trocha. Strong reinforcements are being embarked to support the captain general in the operations now in progress against the insurgents. The Marquis De Ahumada remains in charge of the captain general's office here, with Colonel Ramon Dominguez as his chief of staff. The committee of the national defense has passed a resolution requesting the government to finish the rebellion by the use of the army and without political interference.

NICHOLSON LAW.

Author of the Measure Will Seek to Remedy Defects.

INDIANAPOLIS, Nov. 10—The members of the Indiana Liquor league have received notice that Rev. S. E. Nicholson, author of the temperance law passed by the last legislature, is preparing to offer some important amendments to that measure at the coming session, and the information has created a good deal of feeling. The amendments are said to relate to some of the features of the law, which it has been found hard to enforce, and one of them will provide penalties against officers for neglect of duty. Another will seek to carry out the provisions of the decision of the supreme court in the Swihlin case, in which the court held that the erection and maintenance of a saloon in a residence neighborhood might be a nuisance and that the adjoining property owner could recover damages. The proposed amendment will seek to limit the evidence in such cases to owners of property in the neighborhood affected, thus putting it out of the power of saloonkeepers when sued for damages to bring in others engaged in the business in remote localities and prove that the liquor business is not detrimental to adjoining property. Other proposed amendments will strengthen the law in the matters of filling remonstrances so as to cure the defects which have been found to exist in securing the withdrawal of signers.

SAYS PARNELL STILL LIVES.

Professor Haddon Declares the Irish Leader Is in America.

LONDON, Nov. 10—The London Times says that a firm of London publishers wrote last week to Professor Haddon, of Dublin, anent the matter of preparing a life of Parnell.

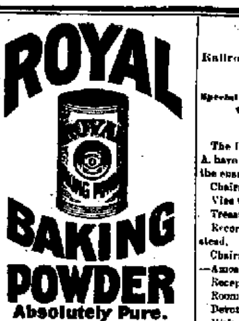

Professor Haddon replied, saying that a general belief exists that Parnell is alive on an obscure ranch in a western state.

Shortly after the announcement of Parnell's death Professor Haddon approached the widow, mother and personal friends of Parnell with a view to obtaining materials for a biographical sketch. Documents and statements concerning Mr. Parnell were refused, the reason being given in confidence that Parnell is still alive.

ARRESTED FOR FORGERY.

A Once Respectable Man Downed by Strong Drink.

CLEVELAND, Ohio, Nov. 10—Frank E. Norton, a traveling salesman of Boston, is locked up at the central police station on the charge of passing forged checks. A number of bogus checks were found upon his person when he was searched by the police. Norton says he comes from one of the best families of Massachusetts and attributes his downfall to drink.

The associations of Wabash college and of Crawfordsville will entertain accredited delegates and a half fare from all points in Indiana has been secured, good returning until Monday midnight. A general invitation has been extended to all young men, whether members or not, and to business men, railroad men, pastors and others interested in the work. The principal speakers include Prof. Graham Taylor, of "Chicago Commons;" T. S. McPheeters, of St Louis, chairman of the Missouri state committee; L. D. Wishard, foreign secretary of the international committee; James M. Burwick, freight conductor, Evansville and Terre Haute railway; A. W. Wight, secretary of the city department, Y. M. C. A., Fort Wayne, and Frank W. Ober, managing editor of the Men. The music will be in charge of Albert Shook, of Terre Haute, one of the best chorus leaders of the west.

Killed by a Bear.

TROY, Mont., Nov. 10.—Rev. J. D. Mentor, of this place, has lost his life in a desperate encounter with a bear in the mountains near here. He had been out with a hunting party and separated from them during the morning. At daylight he did not return, and becoming alarmed his companions started out to search for him. Mentor's hat was found in the snow. Blood was seen and evidences of a terrible battle with a bear were found. Following the trail the dead and lacerated body of the young minister was found about 100 yards away.

Convicted of Forgery.

SAN FRANCISCO, Nov. 10—Alonzo J. Whiteman, ex-mayor of Duluth, legislator and prominent citizen of Minnesota, who was convicted of forgery and sentenced to San Quentin, went forth yesterday a free man from Judge Wallace's court. Superior Judge Wallace dismissed the three indictments against him at his own request, and a most interesting case was brought to an end.

J. M. ROBINSON.

Remarkable Career of Our Congressman-Elect.

Monday's Indianapolis Sentinel contains the following complimentary notice of Hon. James M. Robinson, congressman-elect of this district:

"Congressman-elect J. M. Robinson, of the Fort Wayne district, has indeed had a remarkable career. Commencing life on the streets of Fort Wayne as a newsboy at the age of fifteen, in 1876 he began work in the shop as a machine hand, at that time supporting a widowed mother; for five years he labored in the shop, in the meantime studying law; and, quitting his employment there in 1881, he began at once the practice of law at Fort Wayne. In 1886 he was unanimously nominated for prosecuting attorney and elected, running 700 votes ahead of the state ticket. After filling four years as prosecuting attorney, in 1892 he came within a few votes of receiving the nomination for congress in that district at the age of thirty. This year he was nominated without opposition for his first term, being the first time that this has occurred in the history of the district. By running ahead of the presidential ticket in Fort Wayne nearly 600 votes, he is elected to congress by about 500 majority."

A prominent East Jefferson street young lady was sadly disappointed last evening in not getting a ride around the court house square. She had made an agreement with a prominent young horse shoer that if Bryan was elected she would give him a ride in a wheel barrow on the cobble stones of the gutters about the public square and if McKinley was elected he was to push the vehicle, with her an occupant. The affair was to have taken place at 7:30 o'clock and the young lady was on hand with an arm load of cushions which she had intended to use to reduce the jolting to a minimum. The young man was also at the scene, but minus the barrow. He had expected the young lady to back down and when she put in an appearance he didn't have nerve enough to fulfill his part of the contract, much to the disappointment of a large number of expectant spectators and the friends of both parties.

Mrs. C. Hettler has returned from Van Wert, where she was the guest of Mrs. Joseph Miller.

Mrs. Spencer, of Indianapolis, is the guest of Mrs. Rose Rodabaugh, of 286 Washington boulevard.

Mr. and Mrs. William Leonard and daughter, Mildred, of Chicago, are guests of James H. Leonard.

J. A. Purviance of Huntington, has accepted a position as traveling salesman for Morgan & Co., the hardware dealers.

Miss Edna Bense has returned from Cincinnati, where she was bridesmaid at the wedding of her friend, Miss Clara Mabus.

Contractor Lichtsinn has secured the contract of excavating for the cellar and foundation for the Zelt grocery building, corner of East Wayne and Coombs streets. A number of teams and men are now engaged upon the work. The building will be a two story brick and when completed will be occupied by a grocer and a butcher.

TOOK POISON.

William Humbert's Body Found in Franklin Square.

A Note in His Pocket Tells How Death Occurred and Leads to Identity of the Man.

BOSTON, Nov. 10—The body of a man, believed to be Wm. F. Humbert, of Lynn, at one time a member of the Chicago and Boston base ball teams, was found on Franklin square, this city, this morning, and in a pocket the police found a note which announced that it was the writer's intention to poison himself. The note was signed "W. H. Foley, Lynn," and asked that his wife in Lynn be notified.

Investigation showed that William F. Humbert had been missing from that city and that the description of the body agreed with that of Humbert. Mrs. Humbert lives at the address left by the suicide. Humbert sustained injuries to his head in a street car accident some time ago and it is thought his failure to collect damages led to despondency.

Morrison Pleads Guilty.

TROY, N. Y., Nov. 10—George H. Morrison, the defaulting treasurer of Rensselaer county, has pleaded guilty to indictment as charged. The total sum of his defalcation is nearly $240,000. He was sentenced to ten years and five months in Dannemora prison.

A Household Treasure.

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family has always found the very best results follow its use; that he would not be without it, if procurable. G. A. Dykeman, druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottles free at Dreier & Bro.'s Drug Store. Regular size, 50c and $1.00.

Did You Ever

Try Electric Bitters as a remedy for your troubles? If not, get a bottle now and get relief. This medicine has been found to be peculiarly adapted to the relief and cure of all female complaints, exerting a wonderful direct influence in giving strength and tone to the organs. If you have loss of appetite, constipation, headache, fainting spells, or are nervous, sleepless, excitable, melancholy or troubled with dizzy spells, Electric Bitters is the medicine you need. Health and strength are guaranteed by its use. Large bottles only fifty cents, at Dreier & Bro.'s Drug Store.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Dreier & Bro.

Constipation is the start of nearly all sickness in the world. It not only makes a man sick, but it depresses him mentally. It gives him "the blues." He is plunged in the depths of despondency. As he gets rid of his constipation, he feels himself lifted out of the depressing darkness back into the light of health and good feeling. The alarming prevalence of this really dangerous, seemingly insignificant disorder, many years ago induced Dr. Pierce to prepare his since world-famous "Pleasant Pellets." They are designed to do just one thing, and they do it. They restore the bowels and liver to a healthy, natural action. One little "Pellet" is a gentle laxative, and two a mild purgative. They cure headache, heart-burn, sour stomach, flatulency, biliousness, foul taste in the mouth, and all the other disagreeable symptoms of constipation. Druggists sell them, but look out that your druggist is honest with you, and gives you what you ask for. Don't accept a substitute.

There would be less sickness in America if every home library contained a copy of Doctor Pierce's great work, "The People's Common Sense Medical Adviser." It is exactly what its name implies. It is the people's text-book of medicine, prepared by a regular, practicing physician, eminent in his profession, and now—as for thirty years—the head of one of the greatest medical and surgical institutes in the world—The Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. It is full of simple, inexpensive, common sense remedies for the cure of the common ailments that arise in every family. By following its advice, many illnesses are nipped in the bud, which might otherwise become serious and dangerous. This great book will be sent absolutely free, in paper-covers, to any one who will send twenty-one one-cent stamps to pay the cost of mailing only, to the World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y. If French cloth binding is desired, send ten cents extra (thirty-one cents in all).

Keep A— Jumpin'

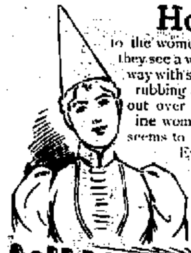

THE storekeeper, politician, salesman, mechanic or laboring man who expects to do much business or make both ends meet this year, must practice the lesson in the above illustration: Two bullfrogs found themselves in a pail of milk from which they could not jump out. One of them was for giving up, and said to the other: "Good bye, I sink, I die." Said his mate: "Brace up you duffer." Keep a jumping and see what turns up. So they kept a jumping up and down all night, and by morning had so churned the milk that it turned to butter, and they jumped off the butter on to land. This is no milk and water tale as you see by the results—the butter. If you want to make both ends meet, "Keep a JUMPING." Don't cry "I sink, I die." You who keeps looking for bad times and a snap will not live long enough to get a snap or see good times. The man who keeps a jumping and buys his FURNITURE, Carpets, Stoves and Dishes of the

How it looks,

to the women who wash with Pearline, when they see a woman washing in the old-fashioned way with soap—rubbing the clothes to pieces, rubbing away her strength, wearing herself out over the washboard! To these Pearline women, fresh from easy washing, she seems to "wear a fool's cap unawares."

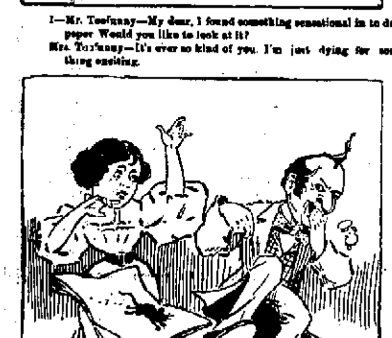

Everything's in favor of Pearline—easier work, quicker work, better work, safety, economy. There's not one thing against it. What's the use of washing in the hardest way, when it costs more money?

RAILWAYS AND SHOPS.

The Pittsburg Puts a New Time Table Into Effect Sunday.

Accidents, Incidents and Personal Gossip, Picked Up Around the Railways and Shops.

Next Sunday a new time table goes into effect upon the Pittsburg road. The only important change will be in the departure of the Chicago accommodation, No. 37, which will leave this city at 8 a. m. instead of 7:10 a. m. This change will be welcomed by the traveling salesmen, some of whom find the 7:10 train too early for them.

BRIEF MENTION.

Supt. J. B. Barnes, of the Wabash is in the city.

Walter Adams, machinist at the Bass works, is sick and off duty.

J. L. Head, Wabash claim agent, was in the city yesterday. He resides in Peru.

Engines 350 and 479 were turned out of the Wabash shops today after being repaired.

Frank Cherry, one of the veteran boilermakers in the Pittsburg shops, is off duty on account of sickness.

L. R. Bookwalter, machinist in the Pittsburg shops, is suffering from an illness which confines him to his home.

Two dynamos to New York and one dynamo to Boston were the chief shipments from the electric works today.

Charles W. Zeigler, the Nickel Plate local freight conductor, has moved from Superior street into the east house at 171 West Main street.

Nickel Plate engine 106 has gone to the shops for repairs.

The winter schedule of the Pennsylvania lines takes effect November 15.

Conductor H. G. Ross, of the Nickel Plate, has been enjoying a few days' rest.

J. A. Jackson, Nickel Plate brakeman, has removed from Superior to Boone street.

J. W. Murphy, Nickel Plate brakeman, is taking a day off to look after private affairs.

Engineer W. Morris and Fireman John Dixon, of the Nickel Plate, are taking a lay off.

J. H. Garahty, formerly purchasing agent of the Big Four, is operating a coal mine in Illinois.

C. J. Smith is a new name on the Nickel Plate pay rolls. The owner of the cognomen is a brakeman.

The machinists who attend the meeting of the union tomorrow evening will be treated to a dish of oysters.

This is pay day at the Bass works and a half-dozen other factories. At the former shop the men received their wages in gold.

F. E. Caley, a brakeman on the Pennsylvania railway, fell in alighting from a street car Sunday afternoon and broke his left wrist.

Supt. T. B. Pickard and Mr. C. T. Strawbridge, of the Bass Foundry and Machine works, went to St. Louis on business for the firm.

On Friday a larger number of freight trains were run on the Michigan division of the Big Four than on any day during the past two years.

J. E. Noble, traveling salesman for the Bass works, went to Chicago today to make an estimate and put in a bid for equipping a steam plant.

Joseph Carry and Henry Dryer, of the Pittsburg blacksmith shop, are off duty on account of sickness. Mr. Carry is afflicted with rheumatism.

It is stated officially that the Pittsburg, Fort Wayne and Chicago, in the last sixty days before the election, carried to Canton 52,400 people.

Railroad Commissioner Date, of Massachusetts, is thought to be fatally ill. Three weeks ago he was stricken with congestion of the brain.

December 1 has been decided upon as the date for the formal opening of the Pennsylvania company's new freight depot at Columbus, Ohio.

George Horton, the Nickel Plate brakeman who was kept from his duties several days by the serious illness of his baby, took his run out yesterday.

The Keystone Bridge company has been awarded a contract to build thirteen long steel viaducts for the Butler and Pittsburg road, Mr. Carnegie's new line.

Brakeman W. P. Morris, of the Nickel Plate, has gone to Lima, Ohio where his father is lying so ill that hopes of recovery have been abandoned.

It is understood that Garret A. Hobart, vice president-elect, will this week resign his position as one of the board of arbitrators of the Joint Traffic association.

Charles Holbt came home last evening from Shelby, Ohio. He spent two months in that place, setting up an engine and other machinery, which was built at the Bass works.

Pittsburg engines Nos. 3 and 245 left the shops yesterday after repairs and repainting. Coach 157 was also turned out of the shops yesterday, wearing a brand new coat of paint and varnish.

O. Browning, formerly foreman of the bending department of the Standard Wheel works, has moved from this city to Indianapolis, where he is engaged in a similar capacity with the same firm.

Mr. and Mrs. Christian Shults, who were spending their honeymoon at Grand Rapids, Mich., returned home Saturday, and Mr. Shults, who is a machinist, has resumed his duties in the Bass shops.

Since the election there has been a great rush of hunters with their equipments to northern hunting grounds. One train on Wednesday had thirty sportsmen on board, most of them going to northern Michigan.

Louis G. Dailey has returned from Wabash and resumed his place at the desk in the office of Master Car Builder J. A. Graham. George White, who filled the position during Mr. Dailey's absence, has returned to the east shops.

William Kelley, of the testing department of the electric works, had the palm of his left hand burned into a crisp while working about arc lamps this morning. Though the pain from the wound is intense, Mr. Kelley pluckily remained on duty.

The rules governing the train service of the Wabash are now printed in book form and are encased in a neat imitation morocco cover. Formerly the rules were printed upon the backs of the time cards. The books are now being distributed among the trainmen.

The patrol wagon was called to Fairfield avenue at 5:30 last evening to remove a sick man from the Wabash local freight train to his home. This probably gave rise to the rumor which was circulated about the city this morning that a man had been killed by a Wabash train.

Sam Deahl is taking a few days' rest. J. E. Allen and F. Young have reported for duty after a few days' absence. All are Nickel Plate brakemen.

Brakeman John Kay, of the Nickel Plate, who was at Bellevue ten days, looking after some private business, resumed his run on the road yesterday.

Employes of the Big Four have, since the boom in its stock set in, been purchasing some of the preferred stock. One employe on Saturday put $500 into this stock.

General Manager Green, of the Baltimore and Ohio, has removed his family from Cincinnati to Baltimore, taking the house occupied for some years by ex Governor Jackson.

Tim Short, the well known Nickel Plate engineer, has gone to Round lake, in western Indiana, to hunt ducks and quail ten days. He goes up there twice a year and always finds plenty of game.

Nickel Plate engine 28 has been turned out of the Stony Island shops and is hauling freight again between this city and Bellevue. Engineer D. J. McFee and Fireman John Tracey form the crew of No. 28's crew.

W. P. Jenkins, third vice president and superintendent of transportation of the Hammond Packing company, has resigned his first named title and will give his entire attention to the transportation department, so much have the duties of the department increased.

Grand Rapids engine No. 216 was taken into the Fort Wayne shops today for repairs to her drive wheels and journal. This is the first engine from that line to come here for repairs, but, under the new order of things, it will be followed by many more. Only light repairs will be done in the Grand Rapids shops hereafter.

General Manager Ramsey, of the Wabash, will arrive here at 9 o'clock tomorrow morning. On his trip over the line he is accompanied only by division superintendents, civil engineers, roadmasters and section foremen. The shop officials are not taken on this tour, but their turn, it is expected, will come later.

Western roads have agreed to establish a normal commission of 10 per cent. on December 1, regardless of any action of the Southern Pacific, and now that the Chicago and Grand Trunk and the Canadian Pacific have agreed to pay no more excessive commissions on west bound immigrant business, the matter seems about settled.

The many friends of Allen Hamilton, the well known Pittsburg machinist, will be sorry to learn that he met with an accident yesterday which resulted in the amputation of one of his index fingers. Mr. Hamilton got the digit fastened into a lathe which he was operating. Dr. G. C. Stemen amputated the finger at the first joint.

It is stated that the reason the Vandalia is using its large eight wheel Schenectady engines so little on its fast express trains is that they pound the track badly, and the company will now commence putting stone ballast where the track suffers most from the character of the ground upon which it rests, gravel ballast not being solid enough to prevent the track settling.

Judge Allen, of the United States court, has rendered a decision giving judgment for $93,752 in favor of James E. Hopkins and E. O. Wilson, receivers of the western division of the Louisville, Evansville and St. Louis, against the connecting railway company and the Wiggins Ferry company for rents, taxes and waste under the lease made by complainants with the defendants.

The work of getting out the material for the new cars which are to be built at the Pennsylvania shops is well advanced and next Monday the car builders will commence erecting them. From that time until the completion of the work an average of six cars per day will be turned out of the shops. As there are 235 cars to be built the work will consume about six weeks and will not be completed before the holidays.

Pittsburg switch engine No 9 pushed a section of the round house wall out last evening. The locomotive was set upon one of the stalls to be cleaned and one of the cleaners, a new employe, climbed into the cab to move the engine forward a few feet. He gave the lever too vigorous a pull and before he knew "where he was at," the drivers went spinning around and the engine went through the wall. The only damage to the engine was a broken step.

The western roads have struck another blow at the scalpers by the adoption of a new form of certificates for use whenever tickets are sold to conventions, meetings or at reduced rates. The agreement to sell only such tickets will prevent the scalpers handling them, which, for years, they have been doing on a large scale, much to the annoyance of the companies. The new certificate is considered iron clad, and one that it will be impossible to scalp. It is stated that the members of the Western Passenger association favor putting it in use at once, and at their meeting next week will probably vote to do so.

CONSTANTINOPLE, Nov. 10.—The reports in circulation here on Thursday last that a massacre had occurred in an American village near Kaisarieh, and that sixty persons had been killed were not exaggerated. On the contrary, the affair turns out to have been more serious than at first announced. The massacre occurred in the village of Everek. One hundred persons were killed and nearly all the Armenian houses were pillaged.

KNIGHTS OF LABOR.

The General Assembly Opened for Business.

All the Sessions to be Held Behind Closed Doors and Delegates Pledged to Secrecy.

ROCHESTER, N. Y., Nov. 10—The regular session of the general assembly of the Knights of Labor opened here today with about 100 delegates present from different parts of the United States and Canada. General Master Workman Soverign presided, and Charles W. Wright, of this city, welcomed the delegation and introduced Mayor Warner, who delivered an address. General Worthy Foreman M. J. Bishop, of Boston, replied to Mayor Warner, and stated the objects of the order. T. B. McGuire, of Amsterdam, a member of the executive board, delivered an address, and Mrs. Ford, of Rochester, the only woman delegate, also spoke, after which the meeting went into executive session. The meeting throughout is strictly secret, nothing being given out except through the press committee appointed by the general master workman.

A Traveling Man Drowned.

VALPARAISO, Ind., Nov. 10.—Last Wednesday George Bedell, a traveling man, left this city on a trip through Michigan. Saturday Mrs. Bedell received a telegram stating that her husband had been drowned while crossing the river at Fair Grove, Mich. He was an ex-soldier, fifty-five years old, and leaves a family of six children.

Surely Elected.

DENVER, Col., Nov. 10.—The official returns show that the majority for John F. Shafroth in the First congressional district of Colorado is 54,372. This is the greatest majority ever given a member of congress since the foundation of our government.

THE DEAF MAY HEAR.

That Is, When They Go to Dr. G. B. Spalding's Presbyterian Church.

Many an old lady goes to church of a Sunday and sits through the service in a frame of mind devout to a degree, but never hears a solitary word of the sermon. There is a preacher in Syracuse, Rev. George B. Spalding, D. D., who has changed all that. Dr. Spalding is pastor of the First Presbyterian church, a religious body made up in the main of wealthy folk to whom money is no particular object. Moved at first by the lamentations of some of his aged parishioners that they could not hear his preachments—Dr. Spalding was a newspaper man before he joined the clergy, and is a practical soul withal—he arranged, for the better delivery of the gospel to those deaf brethren and sisters, speaking tubes which ran from a large metal receiver—really a megaphone—immediately in front of him on the pulpit, down under the flooring of the auditorium and up into the pews. The megaphone is built into the front of the pulpit, so that when reading or speaking the doctor addresses it directly. So successful did the clergyman's device prove, that speaking tubes were put into every pew in the great auditorium. Any person, who is hard of hearing and happens to be a visitor to the church, will find means at hand of hearing the sermon.

One deaf old lady, who went to Dr. Spalding's church the other day, having heard of the speaking tube system, burst into tears when she put the transmitter to her ear and caught the sound of the preacher's voice. She said it was the first sermon she had heard for over a quarter of a century.

MARK YOUR WHEEL.

Here Is a Simple Method for Identification If Your Bicycle Is Stolen.

It is always a good plan for every owner of a bicycle to have a private mark on his wheel. This has been tried plenty of times, but in case of theft it is somehow always discovered and obliterated. Now, however, it is suggested that the machine be marked by scraping an inch square of the enamel from some portion of the frame of the machine. After all traces of the enamel have been removed, apply a coating of grease, and with a pointed piece of steel dipped in carbolic acid, draw the initials or private mark through the grease. The acid follows the marking of the steel point, where the grease keeps it from spreading. After allowing the acid to eat into the tubing, the grease can be rubbed off, and the mark or initial shows as plainly as if cut into the steel framework. One coat of enamel will completely hide all traces of the mark. Should any question as to the ownership of the wheel arise, the owner could, by simply scratching off the enamel which covered his mark, at once prove his claim.

Wheat Records Another Rise in Price.

Opened This Morning One Cent Higher Than Last Night's Close—Other Market Quotations.

NEW YORK, Nov. 10.—Wheat eclipsed yesterday's record price this morning by going up to 87⅞c soon after the start on December. The sharp advance induced profit taking, however, and under the pressure Dec. dropped to 87¼c before noon. Unexpectedly higher cables, foreign buying, unfavorable European and Argentine crop reports and light spring wheat receipts occasioned the early buying. Transactions in wheat futures to noon amounted to 5,970,000 bushels.

Corn and oats sympathized readily with wheat but provisions were lacking in energy, because of large hog receipts. December wheat opened 1⅛@1½c higher, at 80¼@80½c; sold at 80⅝c, declined to 80½c, advanced to 80⅝c, and again declined to 80½c on free selling against calls. May corn opened ¼@⅜c higher at 29¼@⅜c, sold at 28⅞@½c and advanced to 29⅝c.

May Oats opened ¼@⅜c higher, at 22⅞c, sold at 22¼@22⅞c and held steady at 22⅞c.

January pork opened unchanged, at $8@8.02½; declined to $7.95, and recovered to $7.97.

January lard opened 2½c lower, at $4.35, and declined to $4.30.

January ribs opened 2½c higher, at $3.97½@4.00; declined to $3.92½, and recovered to $3.95.

HISTORIC CHURCH.

One of the Few Relics in the Early Northwest.

The old Mission church on Mackinac Island is one of the few Protestant temples that have come down to the present time unchanged from pioneer days. It was built in 1829 when the inhabitants of the island were fishermen. It fronts on the main street and looks across the narrow road just as it did when its builders put the finishing touches to its roof. Before the mission are clustered several cottages with low eaves. These were built in the old days, too, and served as homes for the hardy fellows who caught fish in the lake. Two great elms half hide the view of the building from the shore. The edifice was put up under the direction of Rev. Dr. Ferry, whose son has since risen to eminence as a United States senator. It was built firm and strong. In spite of the fact that almost seventy northern winters have beaten upon it, the old timbers are as stanch as when they were put together, and the tin on the tower shines as lustrously as the day it was stuck on. Along in the '30s, when the fur company dissolved, Mackinac lost its character as a field for mission work, and the building and the grounds about it were sold. The old church passed through a somewhat precarious existence until some of the cottagers and islanders bought it.

Murders Wyatt Williams.

Wyatt Williams, a former cattle king, well known in Chicago, St. Louis and the west, was murdered on Main street, Ardmore, I. T., the other night in cold blood by Bud Watkins, a half-blood Indian, aged 24 years. The murderer was captured after a sensational chase and lodged in jail. The shooting took place one block from the Santa Fe depot. Some bitterness had existed between the two men, and Watkins says he shot in self-defense. This assertion, however, is denied by half a dozen witnesses, all of whom say Williams was shot twice before he pulled his revolver, and that as he fell dying he fired one shot, which went amiss. Williams died almost instantly. During the excitement Watkins made his escape, but was quickly pursued by United States Marshals Booker and Tucker, assisted by C. D. Carter, who with a rifle at the head of the prisoner forced his surrender. Williams was once among the largest and wealthiest stockmen in Texas. He leaves a widow and four children.

She Sleeps Under Water.

A unique case in the annals of medicine is that of Mrs. Taylor Young, of Moorehead, Ky., who has been for weeks confined to a bed of water. Her peculiar trouble and remarkable treatment are attracting wide attention in the medical world. During the summer Mrs. Young was injured by the accidental discharge of a revolver. The ball penetrated the chest and lodged against the spine. During her treatment she was so sensitive that she could not bear the pressure of a bed, and so one of water was devised. The water is kept at a temperature of 98 degrees, an important factor in her treatment. She is suspended in the water by means of straps, which bear upon portions of her body where she is the least sensitive. An inflated rubber bag is submerged, and is buoyed up just enough to sustain her weight.

Shot His Sweetheart.

Philip Zimmer, aged 24, and a blacksmith, attempted to kill his sister, shot his sweetheart, Celia Viets, in the abdomen, and then put a bullet through his own heart at the Viets' girl's home in his home in St. Louis the other day.

Zimmer's action can only be accounted for on the supposition that he was insanely jealous of the girl he shot.

He had been going with her for three years, and was madly in love.

Before the shooting Zimmer asked Miss Viets to marry him and leave the city, but she refused to do so.

GIRLS IN STORES,

offices, or factories, are peculiarly liable to female diseases, especially those who are constantly on their feet. Often they are unable to perform their duties, their suffering is so intense.

When the first symptoms present themselves, such as backache, pains in groins, headache, dizziness, faintness, swelled feet, blues, etc., they should at once write Mrs. Pinkham, at Lynn, Mass., stating symptoms; she will tell them exactly what to do, and in the meantime they will find prompt relief in Lydia E. Pinkham's Vegetable Compound, which can be obtained from any druggist.

"MY DEAR MRS. PINKHAM—I am so grateful to you for what your Compound has done for me. For four years I suffered such pains from ovarian trouble, which caused dreadful weakness of the limbs, tenderness and burning pain in the groins, pain when standing or walking, and increased pain during menstruation, headache and leucorrhœa. I weighed only 92 pounds, and was advised to use your Vegetable Compound, which I did. I felt the benefit before I had taken all of one bottle. I continued using it, and it has entirely cured me. I have not been troubled with leucorrhœa for months, and now I weigh 118 pounds."—LIZZIE HARTSON, Flushing, Genesee Co., Michigan. Box 60.

Eczema ON BABY

Grew Worse under Treatment of Best Physicians. Tried

CUTICURA REMEDIES

Great Change in Five Days and To-day is Entirely Cured.

My baby had Eczema in its worst form. I tried the best physicians in the city, all attended her, but she continued to get worse all the time. He finally admitted he was at his wits' end. I then got CUTICURA REMEDIES, and in a few days noticed a great change in her condition. She continued to improve and to-day is entirely cured, has nice head of hair, and is lively and hearty. I spent considerable money for drugs and doctor's bills, which was useless. J. F. JACOBS, 3051 Wilkins Ave., Balt., Md.

SPEEDY CURE TREATMENT.—Warm baths with CUTICURA SOAP, gentle applications of CUTICURA (ointment), the great skin cure, and mild doses of CUTICURA RESOLVENT, greatest of humor cures.

WOMEN'S WINTER UNDERWEAR.

One of the delightful things about the present cheapness of Underwear is that it permits so many to enjoy the luxury of wool for underwear as well as the close ribbed Cotton Jerseys with their fine soft knap. Makers of underwear now consider health, and select those threads of wool and cotton of well known purity, and only that kind finds a place on our underwear counters.

A. Maxwell & Co. He was the guest of his mother on East Superior street yesterday and today, and will leave this evening to resume his route.

Columbia City Post: "Hon. J. M. Robinson, congressman-elect for the Twelfth district, spent Sunday in this city, stopping at the Chambers house. He was greeted and congratulated by a large number of his Columbia City friends, to all of whom he expressed his appreciation of the kind and enthusiastic support they had given him. Mr. Robinson is well pleased with the support he received from this county."

A game of foot ball between the East End Stars and Frank Bradshaw's team resulted in a victory for the East End Stars by a score of 16 to 4. Following were the players and positions of the Stars: H. Holmes, center rush; W. Doehl and J. Beller, guards; H. Perry and C. Kroekman, tackles; C. Koenig and L. Webber, ends; M. Harrod and C. Kessler, half backs; H. Meyers, full back.

A crowded house greeted the Imperial Vaudeville company at the Empire theater last night. The company is one of the best specialty organizations ever seen in this house. The Rideas and their troupe of trained monkeys in the acrobatic sketch made a big hit. Leonard and Fulton, eccentric Irish sketch artists; James B. Mack, Forepaugh's original Yankee farmer; Master Harry, the juvenile comedian, and O'Lynn-Hall were well received by the audience. The company appears the entire week.

The Soldiers' and Sons' and Citizens' club held an annual meeting and election of officers last evening. President U. H. Stewart was presented with a handsome gold watch, suitably inscribed, as a testimonial of appreciation for the work he has done during his regime. The election resulted as follows: First vice president, Peter F. Poirson; vice presidents from the district, Dekalb county, Hon. J. D. Leighty; Lagrange, Hon. F. D. Merritt; Noble county, Hon. No Campaign Within our Memory has been Conducted with as much Good Feeling as the one that has Just Closed.

That's the right kind of American citizenship. We cherish all our differences and it isn't all the political. It is through the clash of ideas that the truth is finally established. Never was it truer than in 1896. Truth alone is immortal. The courage of one's convictions is always laudable. It wins the respect of all. The politics, the conflict over the real soldier and we are fraternal. It is only the ideas and opinions that we want to do the fighting after the ballots are counted.

NOW FOR BUSINESS.

The uncertainty over is gone to improve. All mercantile affairs and business of every kind is beginning, and will go forward to prosperity. We have been prepared, and offer bargains in Furniture, Carpets, Stoves, Crockery, etc., which cannot be matched. Call and see our stock. We will not be undersold. Easy terms are extended to those desiring them. Come and see us.

THE ELECTION is OVER

Now go ahead, provided you are headed right. Much depends on a start in the right direction. Habit soon fastens itself upon you; this is as true of a good habit as a bad one. Bad habits are costly. Many a man like the "Prodigal Son" has wasted his substance because he contracted the habit of buying his clothing at the wrong place. Do not run any risks. Do not take any chances. You will be all right if you get in the habit of buying your clothing HERE.

Men's Suits.

At some stores it's all a matter of price. If you object to the looks or the style of a low priced suit they say, "Oh, if you want a stylish suit you must pay more."

It's different at our store—you pay what you please, but you get the style all the same. You get it at

$10 the Suit.
Also at $12.
Likewise at $15.

More money gets better goods, but the cut, the make, the style, is all there, whatever you pay.

CHILDREN'S SUITS

You wish to have the boys well dressed, you want their clothes to fit, to look neat and stylish; you have often wondered why you have so much trouble to get your boy dressed so he will look as well as your neighbor's boy. The reason may not be hard to find. Your neighbor buys her boys' clothes HERE. Boys are a specialty here. Care and attention to detail mark the conduct of our Children's Department. Our line of Suits at $2.50 to $9.00 cannot be matched in North America, South America, either.

OVERCOATS.

Better not buy until you see ours. Doing otherwise will give you a chance to regret something. We do not care whether you wish to pay $5 or $25 for an Overcoat, we can save you money on it. Get the cost and you have the proof.

Reefers and Cape Overcoats.

Any quantity of them, all styles of them, elegantly braided and trimmed if you wish them, plainer if you so desire. Prices from $1 to $7.

There is money to be made by visiting our store before buying clothing of any kind.

FREE—Foot Balls with all Boys' Suits and overcoats at $3.50 or over.

Sam, Pete & Max.
